HUMBLE CITY COUNCIL

MINUTES

REGULAR MEETING

APRIL 24, 2014 – 6:30 P.M.

HELD AT CITY HALL, 114 WEST HIGGINS, HUMBLE, TEXAS

STATE OF TEXAS §
 §
COUNTY OF HARRIS §

MEMBERS PRESENT: Mayor Donnie McMannes, Presiding
Mayor Pro Tem Allan Steagall
Council Member Merle Aaron
Council Member Norman Funderburk
Council Member Andy Curry
City Manager Darrell Boeske
City Secretary Jason Stuebe

MEMBERS ABSENT: Council Member Ray Calfee

STAFF PRESENT: Finance Director Dixie Kellum
Fire Chief Gary Outlaw
Assistant Finance Director Aimee Phillips
Fire Marshall James Nykaza

VISITORS PRESENT: Juanita Steagall
Naomi Curry
Jose Maldonado
Beverly Wolbrueck
Arliss Bentley

Mayor Donnie McMannes called the regular meeting of the Humble City Council to order with a quorum present at 6:30 P.M.

1. INVOCATION AND PLEDGE OF ALLEGIANCE

Council Member Merle Aaron offered the invocation and Pledge of Allegiance.

2. CONSENT AGENDA

2a. Minutes – April 10, 2014 Regular Meeting

2b. Current Invoices

2c. Correspondence

Upon a motion made by Council Member Funderburk, the City Council voted five (5) for and none (0) opposed to approve the Consent Agenda.

3. ADOPTION OF ORDINANCE 14-733 AMENDING CHAPTER 12, BUILDINGS AND BUILDING REGULATIONS, ARTICLE II, TECHNICAL CODES, DIVISION 2, BUILDING AND MECHANICAL CODES, SECTION 12056 BY ADOPTING THE 2012 INTERNATIONAL RESIDENTIAL CODE AND THE 2012 INTERNATIONAL BUILDING CODE; AMENDING CHAPTER 12, BUILDINGS AND BUILDING REGULATIONS, ARTICLE II, TECHNICAL CODES, DIVISION 3, ELECTRICAL CODE SECTION 12-77 BY ADOPTING THE 2014 NATIONAL ELECTRICAL CODE; AND AMENDING CHAPTER 18, FIRE PREVENTION AND PROTECTION; ARTICLE IV, FIRE CODE, SECTION 18-98, BY ADOPTING THE 2012 INTERNATIONAL FIRE PREVENTION CODE.

City Manager Boeske asked for approval of the Ordinance stating that there were no significant changes from our current codes but that it would improve the City's ISO rating.

Mayor McMannes asked if the improved ISO rating would cause insurance premiums to be reduced. City Manager Boeske said that commercial would improve from a rating of 5 to a rating of 4, which could represent an approximately 5% decrease in insurance premiums; in regards to residential premiums, if the codes were not updated the residential rating would likely increase from a 5 to a 10, which is the worst ISO rating and represent significant insurance premium increases for homeowners.

Upon a motion by Council Member Aaron, the City Council voted five (5) for and none (0) opposed to adopt Ordinance 14-733 amending Chapters 12 and 18 of the City of Humble Code of Ordinances.

4. APPROVAL OF CHANGE ORDER NO. 1 – WILLOW STREET AND JORDAN'S GULLY IMPROVEMENT PROJECT.

City Manager Boeske asked for approval and invited a representative from HDR, the City's Engineer to speak to the requested Change Order.

Mr. Jose Maldonado stated that the Change Order is for the crossing of Jordan's Gully at South Houston Street. As water was pumped down from this section, it was discovered that instead of a typical box that could be pulled out easily, the crossing was a pier and beam structure that requires heavier equipment to break out and remove. The cost associated with this is for the extra man hours and equipment to break out the material and haul off.

Council Member Aaron asked if this would require additional work days. Mr. Maldonado stated that they anticipated an additional 12 work days to be added to the project.

City Manager Boeske noted that if the work was finished within two weeks, the City would save \$4,000 in equipment rental that would not be billed to the City.

Upon a motion by Mayor Pro Tem Steagall, the City Council voted five (5) for and none (0) opposed to approve Changer Order No. 1 in the amount of \$38,650.00.

There being no further business before the City Council, Mayor McMannes adjourned the Regular Meeting of the City Council at 6:37 P.M. on Thursday April 24, 2014.

D.G. McMannes
Mayor

STREET PROJECT

Townsen West Improvements

Project Description -

This project will add an additional two lanes to complete the Boulevard section west of Target shopping center to the north-south section of West Townsen Blvd.

Engineers – ARKK Engineer, L.L.C.

Project Cost - \$ 885,541 Bid
 \$ 173,700 Eng.
 \$ 1,059,241 Tot.

Status –

The Council awarded the contract to Metro-City Construction at the July 16, 2013 Council meeting in the amount of \$885,541. We did our final walk-through inspection and the Contractor is working on the punch-list items.

Townsen East Bound

Townsen West Bound

STREET PROJECT

Willow Street & Jordan's Gully Improvements

Project Description -

This project will include the paving, utilities and drainage improvements on Willow Street and the re-grading and improvements to Jordan's Gully from South Houston Avenue eastward for approx. 1,500 feet including the removal of the two existing driveways and replacing one of the existing driveways with larger culverts. Also west of South Houston Avenue for approx. 1,200 feet, the existing enclosed storm sewer will be removed and replaced with an open channel system along with a detention pond.

Jordan's Gully

Engineers – HDR Engineer, L.L.C.

Jordan's Gully

<u>Project Cost -</u>	\$ 1,877,704.50 Bid
	\$ 273,035.00 Eng.
	\$ 38,650.00 CO#1
	\$ 2,189,389.50 Tot

Status –

Council approved the low bid in the amount of \$1,877,704.50 from G.W. Phillips Construction, Inc. at the October 17, 2013 Council Meeting. In the month of April, the contractor poured 2190 sq. yds of concrete slope pavement, 47 sq. yds. of concrete channel bottom, removed and disposed of 624 lf of existing box culverts, and all trees and vegetation where detention pond is located. Council also approved Change Order #1 for the additional work for removing the unknown bridge under Houston Ave.

STREET PROJECT
2013 Asphalt Pavement Improvements

Project Description - Asphalt Pavement

This Project includes the asphalt pavement improvements to Wilson Rd. from Will Clayton to Atascocita Rd. along with the replacement of the existing water line. This Project also includes asphalt pavement improvements to Railroad Avenue from Higgins to First St., Ave. D south of Staitti St., Ave. H from Main St. to Granberry, Granberry from Ave. H to Houston Ave., Anne Ave., from Windswept to Sharon, JL Ranchland side streets and Grace Lane.

Engineers – ARKK Engineer, L.L.C.

Project Cost -

Included with the Concrete Project

Status –

The Council amended the Engineering design Contract to ARKK Engineers, LLC at the April 11th, 2013 Council meeting. The Engineers have completed their design of this project and are waiting on Harris County's approval for the intersections of Wilson Road/Atascocita Road and Wilson Road/Will Clayton Blvd. along with the TCEQ approval for the water line replacement. This project should be ready to let for bids in May of 2014.

STREET PROJECT
2013 Concrete Pavement Improvement

Project Description -

This Project includes the Concrete Pavement Improvements to the area north of First St., bounded by Charles St., 7th St., and Houston Avenue, Higgins between Railroad Ave. and Hwy 59, Charles St. from Higgins to First St., South Memorial from Memorial to dead end, Bender and Township, Main St. from Railroad Ave. to Hwy. 59, Davis Street from South Houston to Main Street, Windswept from Montgomery to HCFC Ditch. This project will also replace the water line at Inter-continental Village and various sidewalks within commercial and school areas.

Engineers – ARKK Engineer, L.L.C.

<u>Project Cost -</u>	\$ 13,092,500 Est
	<u>1,446,300 Eng</u>
	\$ 14,538,800 Est.Tot.

Status –

The Council amended the Engineering design Contract to ARKK Engineers, LLC at the August 22, 2013 Council meeting to include the additional work of decorative traffic, pedestrian signal and brick paver cross walks at the intersection of Higgins and Bender Avenue and Main St. and Bender Ave. The change also included the repaving of Anne Street from Sharon Dr. to the Dead End. The survey is completed and the Engineers have completed the design work and are waiting for approval from TxDot for the intersection connections to First Street. This project should be ready to let for bids in August of 2014.

WATER PROJECTS

First Street Utility Extension Project

Project Description -

This Project includes the extending the sanitary sewer along First Street from Wilson Road to the newly annexed property on the east City Limits. This project also include the relocation of the existing City of Houston's water meter from its present location and moving it to the newly annexed property on the east City Limits.

Engineers – ARKK Engineer, L.L.C.

Project Cost - \$ 250,000.00 Bid
 \$ 59,000.00 Eng
 \$ 309,000.00 Tot.

Status –

The Council awarded the Engineer Contract to ARKK Engineers at the May 23, 2013 Council meeting in the amount of \$59,000. The Engineer has completed the design on this Project. This project was let for bid in April and Bid opening is scheduled for May 28, 2014.

WATER PROJECTS

TxDot Improvements to Business 1960

Project Description -

This project includes replacing the existing water lines along Business 1960 (First Street) from Avenue C to Wilson Road which are currently located under the pavement on First Street.

Engineers – ARKK Engineer, L.L.C.

Project Cost - \$ 590,000.00 Est.
 93,100.00 Eng
 \$ 683,100.00 Est. Tot.

Status –

The Council awarded the Engineer's Contract to ARKK Engineers at the November 14, 2013 Council meeting in the amount of \$93,100. The Engineer is finalizing the design of this project and waiting for approval from TxDot. This project will be ready for to let for bid in May 2014.

WASTEWATER PROJECTS

Sanitary Sewer Rehabilitation – Phase IV

Project Description –

This project consists of the replacement and rehabilitation of several deteriorated sanitary sewer lines throughout the City. This Phase is our continuing efforts to meet our Administrative Order from the TCEQ for SSO sanitary sewer overflows. The Council approved the engineering firm of ARKK Engineers for the design of this project at the April 4, 2012 Council Meeting.

Engineers – ARKK Engineer, L.L.C.

Project Cost - \$ 898,386.00 BID
 \$ 137,300.00 Eng.
 \$ 1,035,686.00 Total

Status – The Contractor has completed the rehab. The contractor lacks the Change Order items and the punch list items

TML, TEMPO, and TxDOT Agreement: Turnback Program is Voluntary

On April 4, 2014, the League and the Texas Department of Transportation (TxDOT) agreed in writing that TxDOT's "Turnback Program" was to proceed entirely on a voluntary basis. Cities first became aware of the program when a letter was sent to larger cities informing them that TxDOT intended to consider transferring all maintenance of certain non-controlled-access state highways to those cities.

What was originally perceived as a unilateral, unfunded mandate on those cities has become a cooperative effort between TML, the Association of Texas Metropolitan Planning Organizations (TEMPO), and TxDOT to address the state's highway funding needs. A select committee of city officials – appointed by Texas Municipal League President Jungus Jordan – met with TxDOT officials on January 6. At that meeting, TxDOT gave assurances that the program is meant to be voluntary.

Later negotiations resulted in a written memorandum of understanding (MOU) between the three organizations. The MOU contains, among others, the following key provisions:

- Written confirmation of the program's voluntary nature.
- The program is available to any city within the boundaries of a metropolitan planning organization (MPO).
- The parties will work together in good faith to ensure the effective and efficient implementation of the program.
- TxDOT incentives for the program will be capped at a statewide total of \$100 million and will be offered on a first come/first served basis.

- The MOU is subject to review every two years for adjustments according to real-world experiences.
- TxDOT will ensure that a candidate highway is in satisfactory condition before a transfer occurs, and no highway will be turned back unless the city agrees that it is in satisfactory condition.
- TxDOT's future maintenance savings will be used by TxDOT on eligible mobility, safety, and preservation projects within the same city that accepts the responsibilities for a turned back road.
- TxDOT will not use a city's refusal to accept a turned back highway as justification to reduce spending in the city or TxDOT district in which the city is located.

The main point of the agreement is confirmation of the voluntary nature of the program—no city will be forced to take over a state highway unless the city agrees it should happen. The next step procedurally is for TML to produce a legislative position related to possible local-option funding sources that will assist cities in maintaining “turned back” highways in their city, as well as with general transportation needs. That position will be developed over the coming months through the TML legislative policy development process.

The complete MOU between TML, TxDOT, and TEMPO can be viewed here: <http://www.tml.org/p/TurnbackMOU.TxDOT.TML.TEMPO.pdf>.

Texas Water Development Board Launches State Water Plan Interactive Website

The Texas Water Development Board (TWDB) has created an interactive website application to promote awareness about water shortages and create transparency by graphically displaying water planning information from the 2012 State Water Plan. This first-of-its-kind online application makes it easy to get details about water shortages at the city, state, and regional levels.

The new website allows water users statewide take an up-close look at data in the 2012 State Water Plan and how water needs change over time. One goal of the website is to provide cities with important information as they plan for projects to submit in regional water plans for SWIFT funding.

The new website can be viewed here: <http://www.texasstatewaterplan.org>.

Texas Mayors Involved in Mayors Water Council

Denton Mayor Mark A. Burroughs recently brought forth a resolution on behalf of the Mayors Water Council (MWC) urging Congress to pass legislation focused water issues important to cities. The resolution calls for developing safe methods to recharge the nation's freshwater sources and finding ways to remove excess silt from aquifers. The resolution also calls for developing new surface water reservoirs at the interstate level, developing environmentally safe methods to transfer water from basins, and finding innovative means to desalinate salt water and make it safe for consumption.

The primary purpose of the Mayors Water Council (MWC), a task force within the U.S. Conference of Mayors, is to assist local governments in providing high quality water resources in a cost effective manner. The MWC provides a forum for local governments to share information on water technology, management methods, operational experience, and financing of infrastructure development.

Additionally, Irving Mayor Beth Van Duyne spoke about water resource development to a gathering of mayors from across the nation during a meeting of the MWC in Washington, D.C. last month. The discussion focused on this proposed resolution to the Conference of Mayors that, if adopted, would request Congress to make water issues a national priority.

Water Loss Audits and Updated Water Conservation Plans Due

H.B. 857, passed during the 2013 legislative session, requires retail water suppliers with more than 3,300 connections to submit an annual water loss audit to the Texas Water Development Board (TWDB). The purpose of the water loss audit is to compute the amount of the utility's water loss during the preceding year. This initial audit is due to the TWDB on May 1, 2014.

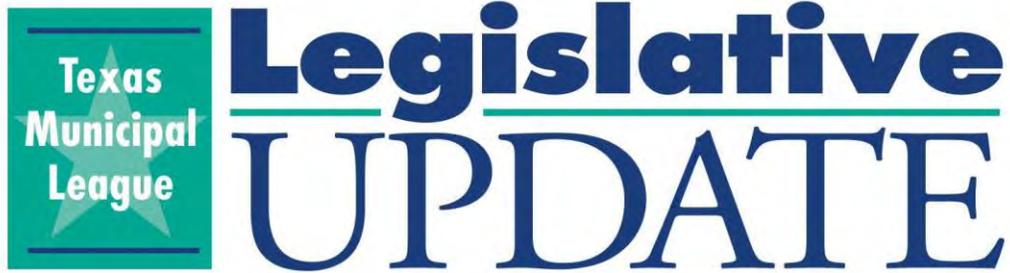

In addition, state law requires each retail public utility that provides potable water service to 3,300 or more connections must submit a water conservation plan to the TWDB and Texas Commission on Environmental Quality (TCEQ). City water utilities meeting the connection requirement were first required to submit a water conservation plan on May 1, 2009. A utility must review and update its plan at least once every five years, meaning that if it has not already done so, a utility that is required to have a water conservation plan must also submit a revised plan to the TWDB and TCEQ by May 1, 2014.

For additional information and guidance on the water loss audit, please visit:

<https://www.twdb.texas.gov/conservation/municipal/waterloss/index.asp>.

More information on the water conservation plan, including information on targets and goals to be included in a water conservation plan, can be found here:

<https://www.twdb.texas.gov/conservation/municipal/plans/index.asp>.

House Committee Discusses West Explosion

On Monday, April 14, the House Committee on Homeland Security and Public Safety met to discuss the fatal fertilizer facility explosion that occurred in the City of West in April of 2013. Testimony from the state fire marshal indicated that a leading factor in the explosion was that 46 of the 96 locations in the state that store fertilizer do so in wooden structures instead of steel or concrete, which likely would have prevented an explosion like the one in West. In addition to discussing potential regulations that would require switching from wooden to non-flammable storage structures, three ideas were discussed that would affect Texas cities.

First, it was suggested that volunteer firefighters, who currently are not required to undergo mandatory training, should be required to receive such training. Discussion was made of the cost burden of mandatory training to smaller communities, and the possibility that some fire departments might have to disband if this were imposed as an unfunded mandate. Committee Chairman Joe Pickett (D-El Paso) acknowledged these concerns and indicated that locating state money to pay for such a requirement would be preferable to an unfunded mandate.

Second, a suggestion was made by a representative of the Texas Department of Insurance that cities might be empowered to set minimum insurance requirements for fertilizer businesses. Representatives of the League are meeting with the Department to discuss the legal and practical ramifications of city regulation over insurance minimums and whether, should insurance requirements be placed on fertilizer facilities, those requirements are best handled at the local or state level.

Finally, there was much discussion in the hearing of whether there should be additional emergency management training for local government officials. Under current law, only an appointed city official tasked with emergency management duties must attend three hours of

training at the state level. Some witnesses at the hearing suggested that elected officials, such as the mayor, should be required to attend required training.

The League will work closely with Chairman Pickett and his committee during the rest of the interim to ensure that the committee's recommendations are appropriate with respect to city authority and duties.

TML member cities may use the material herein for any purpose. No other person or entity may reproduce, duplicate, or distribute any part of this document without the written authorization of the Texas Municipal League.

Legislative UPDATE

April 25, 2014
Number 13

Senate Committee Looks at Local Debt

On April 17, the Senate Committee on Intergovernmental Relations held a hearing on its interim charge relating to increased transparency in the issuance of local debt. Among other things, the committee evaluated the idea of requiring specific ballot language for any local debt election. Such language would include information on current outstanding debt, existing per capita debt, current debt service, and any increase the ballot measure would have on property taxes.

The ballot language idea is not a new one. During the 2013 legislative session, several bills were filed that would have done just that. The League opposed the idea in 2013, and testified on the problems with such a proposal at the recent hearing.

As a basic matter, the ballot is not the appropriate place for voters to be educated on large volumes of financial information. By requiring several paragraphs or even pages of financial data on each ballot proposition, the ballot language can present a very misleading picture as to the overall debt burden in the city. The past proposals could even have introduced voter bias by indicating that a city's level of debt is significantly higher than it actually is. Additionally, S.B. 637 (Paxton), passed in 2013, requires that various types of debt information be included in the election order, and that the election order to be posted on the city's website and in each polling place. Thus, under current law, detailed debt information is already available at the polling place and online.

The committee also discussed other issues related to transparency when issuing local debt. The committee has been charged with analyzing a proposal to move bond elections to a uniform date coinciding with state general elections. Presumably, this proposal would mean that a city could hold a bond election only on the November uniform election date in even-numbered years. The League voiced its concerns with the proposal at the hearing, noting that allowing a bond election only once every two years drastically limits a city's flexibility to fund capital improvement projects that may be necessary to respond to population growth, aging infrastructure, or other matters.

Finally, the committee considered requiring all local governments to publicly post their annual budgets, annual financial reports, and check registers online. While many cities currently do this, some very small cities may not have a website or may not have the technology or resources necessary to comply with this type of mandate.

The League will continue to work with the Senate Committee on Intergovernmental Relations throughout the interim on issues related to local debt transparency.

TCEQ Proposes Rules on Fire Hydrant Water Flow

The Texas Commission on Environmental Quality (TCEQ) recently proposed rules implementing H.B. 1973. The bill, passed in 2013, requires TCEQ to set standards for the installation of fire hydrants and to establish flow standards to provide enough water for fire suppression.

Investor owned water utilities (IOUs) and Water Supply Corporations (WSCs) sometimes serve areas in a city or the city's extraterritorial jurisdiction (ETJ). Some of those utilities have poor service quality, including fire hydrants with insufficient flow.

The proposed rules amend the Texas Administrative Code section on "Minimum Acceptable Operating Practices for Public Drinking Water Systems." Under the proposal, a city council may adopt standards set by the TCEQ to require an IOU or WSC utility located in the city or the city's ETJ to maintain certain water flow and pressure to fire hydrants in residential areas.

The proposed minimum standard is based on standards used by the Insurance Services Office, which rates fire systems for insurance purposes. The minimum sufficient water flow must be at least 250 gallons per minute for at least two hours, and the minimum sufficient water pressure must be at least 20 psi. Under the proposal, a city must submit a signed copy of its ordinance to the TCEQ executive director within 60 days of adoption.

(Note: This proposal does not apply to the City of Houston, and the Cities of Buda, Cibolo, Crowley, Glenn Heights, and Kyle may have additional compliance procedures in accordance with S.B. 1086, a similar bill that passed last session.)

League staff will be working with stakeholders to develop example documents for cities interested in adopting these rules. The example documents will be made available once the proposed rules are finally adopted by the TCEQ. Please contact Heather Mahurin, TML legal counsel, at 512-231-7400 or heather@tml.org with questions.

Payday Lending Clearinghouse Updates

The League's "Payday Lending Clearinghouse" webpage, available at www.tml.org/payday-updates, includes information related to the regulation of payday and auto title lenders. It is updated from time-to-time to reflect recent developments.

Interested city officials should know that a growing number of Texas cities have taken action relating to payday lending. Those with confirmed ordinances are listed on the update page.

TML member cities may use the material herein for any purpose. No other person or entity may reproduce, duplicate, or distribute any part of this document without the written authorization of the Texas Municipal League.

Legislative UPDATE

May 2, 2014
Number 14

Handgun Opinion Broadly Interprets Law

The attorney general recently released Opinion No. GA-1051, relating to the carrying of a concealed handgun on school premises.

The Texas Penal Code expressly prohibits anyone (including a concealed handgun license [CHL] holder) from carrying a handgun on the premises of a high school interscholastic or sporting event. (“Premises” are defined as a “building or portion of a building,” but not including “any public or private driveway, street, sidewalk or walkway, parking lot, parking garage, or other parking area.”) However, another Penal Code provision allows a school board to adopt written regulations that authorize the carrying of weapons on school premises.

The opinion concludes that the second provision “trumps” the first, and that a school board can – pursuant to written regulations – authorize a school marshal or even an employee or trustee who possesses a CHL to carry on school premises. (Such regulations are commonly referred to as a “Guardian Plan.”)

How does this affect municipal authority? Only in one circumstance. The provisions analyzed in the opinion are specific to school district authority. The only analogous city provision relates to municipal court. It is very common, especially in smaller cities, to have city administration offices and municipal court offices in one building, and the Penal Code states that no person may carry a firearm “on the premises of any government court or offices utilized by the court, *unless pursuant to written regulations or written authorization of the court.*”

The default rule when city hall and court offices are housed in one building is that the Penal Code prohibits *anyone* from carrying any firearm into that building. However, under the reasoning in the attorney general opinion, the municipal court could authorize certain people (e.g., those with CHLs) to carry there if it so desires.

The issue of “who can carry what firearms where” in Texas is complicated. A complete Q&A, along with an explanatory chart, is available on the “Legal Q&A” section of the TML website at http://www.tml.org/legal_topics-legal_QnA. (Scroll down to “Gun Regulation.”)

Numerous bills to expand gun carry rights in Texas were filed last session, and it is a certainty that they will be back in 2015.

Committee Lauds Local Economic Development Incentives

The House Economic and Small Business Development Committee met last week to discuss state and local economic development tools. Specifically, the committee heard testimony from the governor’s Office on Economic Development on how the office could more efficiently coordinate with local and regional economic development entities to help further the economic development goals of the state.

While most of the discussion centered on state programs to attract and retain businesses in Texas, the governor’s office and committee members recognized that cities are the primary economic engines of this state. To view a short clip of representative comments, go to <http://www.tmltv.org/LUVideo0430.html>. The committee heard compelling testimony in support of that proposition from the Cities of Pflugerville and Tyler.

FDA to Regulate E-Cigarettes

The federal Food and Drug Administration (FDA) has begun the process of subjecting e-cigarettes to federal regulation. The proposed rules, which may not be adopted for many months, treat e-cigarettes similarly to other tobacco products. For instance, they would ban the sale of the devices to minors, require manufacturers to register with and provide ingredients to the FDA, and subject manufacturers to FDA inspections.

Most city officials will not have concerns with the proposed regulations, and the League will monitor their implementation to ensure that municipal authority relating to smoking (or “vaping”) in public places remains intact.

The 241-page proposal is available at:

<https://s3.amazonaws.com/public-inspection.federalregister.gov/2014-09491.pdf>.

TML member cities may use the material herein for any purpose. No other person or entity may reproduce, duplicate, or distribute any part of this document without the written authorization of the Texas Municipal League.

Legislative UPDATE

May 9, 2014
Number 15

U.S. Supreme Court Upholds Religious Prayer at City Council Meetings

On May 5, 2014, the U.S. Supreme Court issued its decision in *Town of Greece v. Galloway*. The Court ruled that opening prayers at city council meetings do not violate the First Amendment's Establishment Clause, even if they routinely stress Christianity.

Beginning in 1999, the Town of Greece followed an informal method to select prayer givers. The town contacted clergy listed in a local directory and invited them to lead the pre-board meeting prayers, maintaining that a minister or layperson of any belief, including atheism, could give the invocation. Over an eleven-year span, the meetings were opened with a Christian-oriented prayer. In 2008, after residents Susan Galloway and Linda Stephens complained, four of twelve meetings were opened by non-Christians.

Unsatisfied, Galloway and Stephens sued the town, arguing it had violated the First Amendment's Establishment Clause. In support of their argument, the respondents identified some prayers that referred to Jesus. They sought an injunction to limit the town to "inclusive and ecumenical" prayers that referred only to a "generic god."

The district court upheld the town's practice as consistent with the First Amendment. The United States Court of Appeals for the Second Circuit reversed, holding that – viewed in its totality – aspects of the town's prayer program conveyed the message that the town was endorsing Christianity over other religions in violation of the Establishment Clause.

Consistent with *Marsh v. Chambers*, a 1983 U.S. Supreme Court case upholding an opening prayer in the Nebraska legislature, the Court reversed the Second Circuit's decision. The Court

held that the Town of Greece’s practice of opening its monthly town board meetings with religious prayer does not constitute an impermissible establishment of religion.

The Court explained that “[t]he inclusion of a brief, ceremonial prayer as part of a larger exercise in civic recognition suggests that its purpose and effect are to acknowledge religious leaders and the institutions they represent, rather than to exclude or coerce nonbelievers.” Other factors in showing that the town did not violate the Establishment Clause included the religious makeup of the town’s congregations and the fact that the town was willing to allow a person of any faith to deliver the prayer.

The Court cautions, though, that coercion could be possible “if town board members directed the public to participate in the prayers, singled out dissidents for opprobrium, or indicated that their decisions might be influenced by a person’s acquiescence in the prayer opportunity.”

The full opinion is available [here](#).

AGENDA ITEM #6

ORDINANCE 14-734

WATER CONTINGENCY PLAN

CITY OF HUMBLE

ORDINANCE NO. 14-734

AN ORDINANCE OF THE CITY OF HUMBLE, TEXAS, AMENDING CHAPTER 46, UTILITIES BY CREATING ARTICLE V., WATER CONSERVATION; ADOPTING A DROUGHT CONTINGENCY PLAN; ESTABLISHING CRITERIA FOR THE INITIATION AND TERMINATION OF DROUGHT RESPONSE STAGES; ESTABLISHING RESTRICTIONS ON CERTAIN WATER USES; ESTABLISHING PENALTIES FOR THE VIOLATION OF AND PROVISIONS FOR ENFORCEMENT OF THESE RESTRICTIONS; ESTABLISHING PROCEDURES FOR GRANTING VARIANCES; AND PROVIDING SEVERABILITY AND AN EFFECTIVE DATE.

WHEREAS, the City of Humble, Texas recognizes that the amount of water available to the City and its water utility customers is limited and subject to depletion during periods of extended drought; and

WHEREAS, the City recognizes that natural limitations due to drought conditions and other acts of God cannot guarantee an uninterrupted water supply for all purposes; and

WHEREAS, Section 11.1272 of the Texas Water Code and applicable rules of the Texas Commission on Environmental Quality require all public water supply systems in Texas to prepare a drought contingency plan; and

WHEREAS, as authorized under law and in the best interests of the citizens of Humble, Texas, the City Council deems it expedient and necessary to establish certain rules and policies for the orderly and efficient management of limited water supplies during drought and other water supply emergencies; now therefore,

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HUMBLE, TEXAS, THAT:

SECTION 1. That Chapter 46 of the City of Humble Code of Ordinances known as Utilities be amended to create Article V., Water Conservation, and read as follows:

That the City of Humble, Texas Drought Contingency Plan, attached hereto as Exhibit "A" and made part hereof, including appendices thereto, save and except such portions as are hereinafter deleted, modified or amended, and to the same extent are hereby adopted and incorporated as fully as if set out at length herein, and the provisions thereof shall be controlling, and the same is hereby adopted as the official Policy of the City.

SECTION 2. That all ordinances or parts of ordinances inconsistent or in conflict herewith are, to the extent of such inconsistency or conflict, hereby repealed, and all other ordinances of the City not in conflict with the provisions of this ordinance shall remain in full force and effect.

SECTION 3. In the event any section, paragraph, subdivision, clause, phrase, provision, sentence, or part of this Ordinance or the application of the same to any person or circumstance shall for any reason be adjudged invalid or held unconstitutional by a court of competent jurisdiction, it shall not affect, impair, or invalidate this Ordinance as a whole or any part of provision hereof other than the part declared to be invalid or unconstitutional; and the City Council of the City of Humble, Texas, declares that it would have passed each and

every part of the same notwithstanding the omission of any such part thus declared to be invalid or unconstitutional, or whether there be one or more parts.

SECTION 4. Upon the passage of this ordinance, the City Secretary is ordered to publish this Ordinance in accordance with the provisions of Article II, Section 13 of the Charter of the City of Humble and to note on this Ordinance and on the record thereof the fact that this Ordinance has been published as required by the Charter, including the date of such publication.

SECTION 4. This ordinance shall take effect immediately from and after its passage and the publication of the caption, as the law in such cases provides.

PASSED, APPROVED AND ADOPTED this the 13th day of May, 2014.

APPROVED:

D.G. McMannes
Mayor

WATER CONSERVATION
AND
DROUGHT CONTINGENCY PLAN

for

CITY OF HUMBLE, TEXAS

UPDATED
April 2014
ARKK JOB NO. 14-002

Prepared by:

CITY OF HUMBLE WATER CONSERVATION PLAN

Section 1. Approval of the Plan. The City of Humble hereby approves and adopts this Plan as set forth, and the provisions of such Plan shall be implemented immediately and enforced as rules of the City.

Section 2. Declaration of Policy, Purpose and Intent. The purpose of the Plan is to promote the efficient and responsible use of water by (1) implementing structural programs that result in quantifiable water conservation results, (2) developing, maintaining and enforcing water conservation policies, (3) adhering to all applicable rules of the Texas Commission on Environmental Quality and/or the Texas Water Development Board and (4) supporting public education programs that educate customers water conservation.

Section 3. Service Area. Profile data for the City is provided in Appendix "A". Appendix "A" includes data on the City's service area, including population and customer data, water use data, water supply system data and wastewater data. *Water Conservation Utility Profile, TWDB-1965* was utilized to provide the profile data.

Section 4. Five-year and Ten-year Targets. The City shall use reasonable efforts to reduce water loss and municipal use of water. In doing so, the City has identified the following goals for water savings:

Five Year Target: The per capita water usage in the City over the previous five years (2009-2013) was 193 gallons per capita per day ("gpcd"). By the year end 2019, the City shall attempt to reduce the average daily use of water in the City's service area by 5% to 183 gpcd, and to keep the unaccounted water in the system below 10% annually.

Ten Year Target: By the year end 2024, the City shall attempt to reduce the average daily use of water in the City's service area by an additional 3% gpcd to 178 gpcd, and to keep the unaccounted water in the system below 10% annually.

Notwithstanding the targets identified above, the City shall not be obligated to achieve any water savings in its service area, and the City's failure to do so shall not subject the City to any liability whatsoever.

Section 5. Metering Devices. The City will implement a plan of universal metering of all water delivered by the City, and all such metering devices will be calibrated regularly to ensure reasonable accuracy.

Section 6. Unaccounted Water Usage. The City of Humble authorizes the City Manager to

implement any reasonable program to determine unaccounted uses of water and to make recommendations regarding measures to control such unaccounted uses of water. Such measures may include periodic visual inspections along distribution lines, annual or monthly audits of the water system to determine illegal connections, and investigation of abandoned service connections. The City Manager shall also establish a program of leak detection, repair, water loss accounting for the water storage, delivery, and distribution system in order to control unaccounted uses of water.

Section 7. Continuing Public Education and Information. The City hereby institutes an educational program, to be implemented immediately, to promote the Plan by the general public which may include any of the following:

Direct distributions to all customers of the City of educational and informational material regarding water conservation or drought contingency planning. This may be information provided with the utility billing.

Participation with elementary schools within the City of Humble in the Water Wise Program.

Provide book covers to the elementary school promoting water conservation.

Section 8. Cost-based Rate Structure. The City has adopted a water rate structure which is not "promotional" but is cost-based and which does not encourage the excessive use of water. The current water rate structure is attached hereto as Appendix "B"

Section 9. Implementation and Enforcement. Without limitation to specific actions stated in this Plan to be taken by the City Manager, the City Manager will administer and enforce this Plan, and will oversee and be responsible for the execution and implementation of all elements of this Plan.

The City of Humble will adhere to the following in an effort to achieve the targets and goals for water conservation:

Calibrations of the existing water supply meters will be performed annually at a minimum.

The City of Humble's retail customer water meter replacement program is as follows: Meters will continue to be monitored for accuracy and will be tested and replaced or rebuilt on a five-year cycle from meters larger than 2" and on a ten-year cycle for meters 2" and smaller. Logs shall be maintained for meter calibration, meter testing, and meter replacement programs.

Water audits are conducted annually. Real water losses are identified and corrected. Annual water audits shall be documented and kept in the City's files.

The City of Humble does their billing by computer. The meters are read with tower mounted automatic meter reading device. Information collected by the automatic meter reader and computer can detect variation in consumption. The meter reading/billing software produces a report of high or

low consumption which is manually checked in the field.

The City of Humble will mail out material developed by the staff, materials obtained from the Texas Water Development Board, Texas Commission on Environmental Quality or other sources to all retail customers.

The City of Humble will continue to review rates annually to insure water revenues exceed expenses and replacement costs and to discourage excessive and wasteful use.

Section 10. Leak Detection and Repair. The City monitors monthly water use accounting by the billing computer which identifies high water use of the service meters indicating leaks. The data transmitted from meters can identify at what time the water is being used. A steady flow of water throughout the night can indicate leaking pipe or fixtures. The system notifies the utility department regularly of connections that may have a leak and are checked in the field. Constant monitoring by visual inspection by City employees of facilities keeps a constant watch to identify major water main breaks and for abnormal conditions indicating leaks. The City has an adequate maintenance staff available to repair any leaks

Section 11. Record Management. The City authorizes the City Manager to establish a record management system to record water pumped, water delivery, water sales, and water losses, and which allows for the segregation of water sales and uses into single family, multi-family, commercial, industrial, institutional and agriculture user classes.

Section 12. Wholesale Water Customers. The City shall require that each successive wholesale customer develop and implement a water conservation plan or water conservation measures in compliance with all applicable rules of the Texas Commission on Environmental Quality. This requirement will also extend to each successive wholesale customer in the resale of water.

Section 13. Five-year Review. The City shall review and update the Plan every five years, or more frequently, as appropriate, based on an assessment of previous five-year and ten-year targets and any other new or updated information.

Section 14. Coordination with Regional Water Planning Group. The service area of the City is located within the Region H Water Planning Area, and the City has provided a copy of this water conservation plan to the Region H Regional Water Planning Group.

A. Population and Service Area Data

1. Current service area size in square miles: 10
 (Attach or email a copy of the service area map.)

2. Provide historical service area population for the previous five years, starting with the most current year.

Year	Historical Population Served By Retail Water Service	Historical Population Served By Wholesale Water Service	Historical Population Served By Wastewater Service
2013	15,338	378	15,338
2012	15,270	375	15,270
2011	15,201	372	15,201
2010	15,133	369	15,133
2009	15,085	366	15,085

3. Provide the projected service area population for the following decades.

Year	Projected Population Served By Retail Water Service	Projected Population Served By Wholesale Water Service	Projected Population Served By Wastewater Service
2020	16,578	384	16,578
2030	19,003	393	19,003
2040	20,055	393	20,055
2050	20,882	393	20,882
2060	21,841	393	21,841

4. Describe the source(s)/method(s) for estimating current and projected populations.

The population was increased at 0.45% from the 2010 census which was the increase per year from the 2000 to the 2010 census data. An additional 2,500 population is added to the projection from years 2018 to 2027 for the only area that is projected for residential development in the coming years. Most of the other land available for development is projected as commercial or industrial. The projected population for the wholesale water service is for the Ramblewood subdivision only. No information is available for the population of the area that the City of Houston serves and the water supplied to the City of Houston serves as a supplement to their well.

B. System Input

Provide system input data for the previous five years.

Total System Input = Self-supplied + Imported – Exported

Year	Self-supplied Water in Gallons	Purchased/Imported Water in Gallons	Exported Water in Gallons	Total System Input	Total GPCD
2013	779,739,000	333,205,000	85,983,363	1,026,960,637	183
2012	790,515,000	334,185,000	62,945,000	1,061,755,000	190
2011	830,028,000	353,220,000	43,598,000	1,139,650,000	205
2010	893,795,000	180,000,000	22,111,000	1,051,684,000	190
2009	1,112,076,000	338,000	39,719,000	1,072,695,000	195
Historic 5-year Average	881,230,600	240,189,600	50,871,273	1,070,548,927	193

C. Water Supply System (Attach description of water system)

1. Designed daily capacity of system _____ 8,541,600 gallons per day.
2. Storage Capacity:
 Elevated _____ 1,625,000 gallons
 Ground _____ 3,385,000 gallons
3. List all current water supply sources in gallons.

Water Supply Source	Source Type*	Total Gallons
Well #1	Ground	374,400
Well #6	Ground	1,584,000
Well #7	Ground	792,000
Well #8	Ground	1,440,000
Well # 9	Ground	2,851,200
City of Houston Interconnect	Contract	1,500,000

*Select one of the following source types: *Surface water, Groundwater, or Contract*

4. If surface water is a source type, do you recycle backwash to the head of the plant?
 Yes _____ estimated gallons per day
 No

D. Projected Demands

1. Estimate the water supply requirements for the next ten years using population trends, historical water use, economic growth, etc.

Year	Population	Water Demands (gallons)
2015	15,477	1,133,067,000
2016	15,546	1,143,264,000
2017	15,616	1,153,554,000
2018	15,936	1,200,436,000
2019	16,257	1,247,411,000
2020	16,578	1,249,481,000
2021	17,221	1,341,646,000
2022	17,543	1,388,906,000
2023	17,865	1,436,264,000
2024	18,187	1,483,719,000

2. Describe sources of data and how projected water demands were determined. Attach additional sheets if necessary.

Projected water demands were projected based on the water use over the past 29 years. We had data on the total pumping into the system back to 1985. We looked each year and compared it to the last 5,10,15,20 and 25 years. The individual for each numbers varied some were positive and others were negative depending years. However when we averaged the percent change for the 5, 10, 15 20 and 25 year the average for each fell between 0.95% and 0.82%. A yearly increase of 0.90% was utilized to project the future water demand. Additionally, based on information provided by a developer an additional 1 MGD was added between the years 1018 and 2027 (and additional 100,000 gpd/year until the development is complete). The population has grown at 0.45% from the 2000 census to the 2010 census. It was assumed that this rate will continue along with an additional 250 per year for the proposed development.

E. High Volume Customers

1. List the annual water use, in gallons, for the five highest volume **RETAIL** customers. Select one of the following water use categories to describe the customer; choose Residential, Industrial, Commercial, Institutional, or Agricultural.

Retail Customer	Water Use Category*	Annual Water Use	Treated or Raw
Lawler Food	Commercial	48,850,948	Treated
Memorial Hermann Hospital	Commercial	34,877,325	Treated
Medowbrook MHP	Residential	30,764,360	Treated
GGP Deerbook Mall	Commercial	20,025,372	Treated
Township Apartments	Residential	19,596,330	Treated

*For definitions on recommended customer categories for classifying customer water use, refer to the online [Guidance and Methodology for Reporting on Water Conservation and Water Use.](#)

2. If applicable, list the annual water use for the five highest volume **WHOLESALE** customers. Select one of the following water use categories to describe the customer; choose Municipal, Industrial, Commercial, Institutional, or Agricultural.

Wholesale Customer	Water Use Category*	Annual Water Use	Treated or Raw
City of Houston	Municipal	68,735,000	Treated
Ramblewood Water	Municipal	17,248,363	Treated
	Choose One		Choose One
	Choose One		Treated
	Choose One		Choose One

*For definitions on recommended customer categories for classifying customer water use, refer to the online [Guidance and Methodology for Reporting on Water Conservation and Water Use.](#)

F. Utility Data Comment Section

Provide additional comments about utility data below.

B. Accounting Data

For the previous five years, enter the number of gallons of RETAIL water provided in each major water use category.

Water Use Category*	Total Gallons of Retail Water				
	2013	2012	2011	2010	2009
Residential - Single Family	293,728,588	285,835,827	349,427,341	244,206,823	252,897,992
Residential – Multi-family	188,270,571	176,965,497	207,467,194	211,952,000	228,459,984
Industrial					
Commercial	661,480,770	524,729,116	467,150,424	344,516,404	349,827,000
Institutional					
Agricultural					
TOTAL	1,143,479,929	987,530,440	1,024,044,959	800,675,227	831,184,976

*For definitions on recommended customer categories for classifying customer water use, refer to the online [Guidance and Methodology for Reporting on Water Conservation and Water Use](#).

C. Residential Water Use

For the previous five years, enter the residential GPCD for single family and multi-family units.

Water Use Category*	Residential GPCD				
	2013	2012	2011	2010	2009
Residential - Single Family					
Residential – Multi-family					

D. Annual and Seasonal Water Use

- For the previous five years, enter the gallons of treated water provided to RETAIL customers.

Month	Total Gallons of Treated Retail Water				
	2013	2012	2011	2010	2009
January	78,499,000	82,083,000	74,499,000	81,334,000	85,202,000
February	73,857,000	72,398,000	73,063,000	68,766,000	78,461,000
March	92,505,000	81,593,000	82,686,000	78,452,000	83,565,000
April	87,053,000	82,091,000	95,757,000	86,400,000	85,327,000
May	98,389,000	98,454,000	111,045,000	96,972,000	93,034,000
June	102,994,000	103,445,000	120,048,000	102,091,000	122,015,000
July	113,945,000	96,192,000	120,723,000	95,872,000	119,870,000
August	110,021,000	108,911,000	130,290,000	109,064,000	102,088,000
September	99,449,000	106,956,000	117,331,000	93,940,000	89,085,000
October	93,305,000	103,780,000	99,145,000	93,758,000	84,998,000
November	82,070,000	98,060,000	80,900,000	86,700,000	84,271,000
December	80,857,000	90,737,000	77,761,000	79,466,000	84,548,000
TOTAL	1,112,944,000	1,124,700,000	1,183,248,000	1,072,815,000	1,112,464,000

Section II: System Data

A. Retail Connections

- List the active retail connections by major water use category.

Water Use Category*	Active Retail Connections			
	Metered	Unmetered	Total Connections	Percent of Total Connections
Residential – Single Family	3,492		3,492	48%
Residential – Multi-family (units)	2,897		2,897	40%
Industrial			0	0%
Commercial	945		945	13%
Institutional			0	0%
Agricultural			0	0%
TOTAL	7,334	0	7,334	

*For definitions on recommended customer categories for classifying customer water use, refer to the online [Guidance and Methodology for Reporting on Water Conservation and Water Use](#).

- List the net number of new retail connections by water use category for the previous five years.

Water Use Category*	Net Number of New Retail Connections				
	2013	2012	2011	2010	2009
Residential – Single Family	142	32	283	183	147
Residential – Multi-family (units)	110	-3	-186	-172	-145
Industrial					
Commercial	74	31	53	43	-2
Institutional					
Agricultural					
TOTAL	326	60	150	54	0

*For definitions on recommended customer categories for classifying customer water use, refer to the online [Guidance and Methodology for Reporting on Water Conservation and Water Use](#).

2. For the previous five years, enter the gallons of raw water provided to RETAIL customers.

Month	Total Gallons of Raw Retail Water				
	2013	2012	2011	2010	2009
January					
February					
March					
April					
May					
June					
July					
August					
September					
October					
November					
December					
TOTAL	0	0	0	0	0

3. Summary of seasonal and annual water use.

Water Use	Seasonal and Annual Water Use					Average in Gallons
	2013	2012	2011	2010	2009	
Summer Retail (Treated + Raw)	326,960,000	308,548,000	371,061,000	307,027,000	343,973,000	331,513,800 5yr Average
TOTAL Retail (Treated + Raw)	1,112,944,000	1,124,700,000	1,183,248,000	1,072,815,000	1,112,464,000	1,121,234,200 5yr Average

E. Water Loss

Provide Water Loss data for the previous five years.

Water Loss GPCD = [Total Water Loss in Gallons ÷ Permanent Population Served] ÷ 365

Water Loss Percentage = [Total Water Loss ÷ Total System Input] x 100

Year	Total Water Loss in Gallons	Water Loss in GPCD	Water Loss as a Percentage
2013	8,737,313	2	1%
2012	86,185,000	15	8%
2011	12,398,680	2	1%
2010	172,811,934	31	16%
2009	241,682,463	44	23%
5-year average	104,363,078	19	10%

F. Peak Water Use

Provide the Average Daily Water Use and Peak Day Water Use for the previous five years.

Year	Average Daily Use (gal)	Peak Day Use (gal)	Ratio (peak/avg)
2013	3,046,000	4,865,000	1.60
2012	3,072,000	4,094,000	1.33
2011	3,263,000	5,198,000	1.59
2010	2,997,000	4,415,000	1.47
2009	3,098,000	5,022,000	1.62

G. Summary of Historic Water Use

Water Use Category	Historic 5-year Average	Percent of Connections	Percent of Water Use
Residential SF	285,219,314	48%	0%
Residential MF	202,623,049	40%	0%
Industrial	0	0%	0%
Commercial	469,540,743	13%	0%
Institutional	0	0%	0%
Agricultural	0	0%	0%

H. System Data Comment Section

Provide additional comments about system data below.

Item A. 2 is information obtained from running inquirers on the billing software. These numbers do not appear correct based on the limited amount of development that has occurred over the last 5 years. The software company support is looking into this.

Item C. Residential Water Use could not be calculated. We did not have any information on the breakdown of the population between Single Family Residential and Multi-Family Residential.

Section III: Wastewater System Data

If you do not provide wastewater system services then you have completed the Utility Profile. Save and Print this form to submit with your Plan. Continue with the [Water Conservation Plan Checklist](#) to complete your Water Conservation Plan.

A. Wastewater System Data (Attach a description of your wastewater system.)

- Design capacity of wastewater treatment plant(s): 4,950,000
gallons per day.
- List the active wastewater connections by major water use category.

Water Use Category*	Active Wastewater Connections			
	Metered	Unmetered	Total Connections	Percent of Total Connections
Municipal	3,001		3,001	77%
Industrial	0		0	0%
Commercial	874		874	23%
Institutional	0		0	0%
Agricultural	0		0	0%
TOTAL	3,875	0	3,875	

- What percent of water is serviced by the wastewater system? 100%
- For the previous five years, enter the number of gallons of wastewater that was treated by the utility.

Month	Total Gallons of Treated Wastewater				
	2013	2012	2011	2010	2009
January	57,663,000	62,105,000	67,582,000	57,935,000	62,642,000
February	50,181,000	69,690,000	58,251,000	58,321,000	55,976,000
March	53,905,000	68,674,000	61,457,000	55,842,000	67,226,000
April	54,881,000	61,712,000	58,032,000	51,068,000	71,294,000
May	56,263,000	60,926,000	60,680,000	63,799,000	58,818,000
June	58,023,000	59,952,000	59,339,000	65,307,000	57,124,000
July	59,370,000	64,753,000	63,066,000	80,460,000	60,596,000
August	58,741,000	65,027,000	61,192,000	65,978,000	60,839,000
September	60,319,000	60,487,000	58,244,000	68,133,000	58,757,000
October	65,748,000	61,188,000	61,048,000	61,971,000	66,339,000
November	63,763,000	54,910,000	58,797,000	63,674,000	54,419,000
December	56,807,000	54,543,000	65,569,000	64,041,000	65,502,000
TOTAL	695,664,000	743,967,000	733,257,000	756,529,000	739,532,000

4. Can treated wastewater be substituted for potable water?

Yes No

B. Reuse Data

1. Provide data on the types of recycling and reuse activities implemented during the current reporting period.

Type of Reuse	Total Annual Volume (in gallons)
On-site irrigation	
Plant wash down	53,400,000
Chlorination/de-chlorination	
Industrial	
Landscape irrigation (parks, golf courses)	
Agricultural	
Discharge to surface water	
Evaporation pond	
Other	
TOTAL	53,400,000

C. Wastewater System Data Comment

Provide additional comments about wastewater system data below.

You have completed the Utility Profile. Save and Print this form to submit with your Plan. Continue with the [Water Conservation Plan Checklist](#) to complete your Water Conservation Plan.

**APPENDIX B –
CITY'S EXISTING WATER RATE STRUCTURE**

RESOLUTION

NO. 13-724

**A RESOLUTION ADJUSTING THE CITY OF HUMBLE COMMERCIAL WATER
AND SEWER RATES AND PROVIDING AN EFFECTIVE DATE.**

WHEREAS, the governing body of the City of Humble, Texas deems it a necessity to increase the current commercial water rates, the following rates shall be charged:

Section 1. Water Rates

METER SIZE	MINIMUM MONTHLY	COST PER 1,000 GALLONS OVER 3,000
5/8" X 3/4"	\$ 21.00	\$ 3.65
1"	\$ 30.00	\$ 3.65
1.5"	\$ 55.00	\$ 3.65
2"	\$ 85.00	\$ 3.65
3"	\$ 125.00	\$ 3.65
4"	\$ 150.00	\$ 3.65
6"	\$ 200.00	\$ 3.65
8"	\$ 250.00	\$ 3.65
>8"	\$ 300.00	\$ 3.65

Section 2. Commercial Sewer Rates

METER SIZE	MINIMUM MONTHLY	COST PER 1,000 GALLONS OVER 3,000
5/8" X 3/4"	\$ 35.00	\$ 3.90
1"	\$ 40.00	\$ 3.90
1.5"	\$ 55.00	\$ 3.90
2"	\$ 70.00	\$ 3.90

3"	\$ 85.00	\$ 3.90
4"	\$ 110.00	\$ 3.90
6"	\$ 140.00	\$ 3.90
8"	\$ 200.00	\$ 3.90
>8"	\$ 250.00	\$ 3.90

NOW, THEREFORE BE IT RESOLVED by the City Council of the City of Humble, Texas that the aforementioned adjusted commercial water and sewer rates shall be charged and shall be effective as of January 1, 2013.

PASSED, APPROVED and ADOPTED this 20th day of November, 2012.

D. G. McMannes
Mayor

ATTEST:

Sue Daniel, City Secretary

RESOLUTION

NO. 10-708

A RESOLUTION ADJUSTING THE CITY OF HUMBLE WATER AND SEWER RATES AND WATER TAP FEES FOR RESIDENTIAL AND COMMERCIAL CUSTOMERS AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the governing body of the City of Humble, Texas deems it a necessity to increase the current water rates and water and sewer tap fees for residential and commercial customers, the following rates shall be charged:

Section 1. Water Rates

Residential and Multi-Family Dwellings - Water

\$ 12.50 - for the first 3,000 gallons used per unit and \$ 2.05 per additional 1,000 gallons used thereafter

Residential Senior Citizens - Water

\$ 4.75 - for the first 5,000 gallons used; and \$ 1.70 per 1,000 gallons up to 10,000 gallons; and \$ 2.05 per additional 1,000 gallons used thereafter

Commercial Small - Water

\$ 23.00 - for the first 3,000 gallons and \$ 3.45 for each additional 1,000 gallons used thereafter. (Examples of Customers - individual retail stores, churches without food preparation, offices and convenience stores without food preparation or restaurants, service stations without carwashes and/or food preparations, commercial irrigation)

Commercial Medium - Water

\$ 55.50 - for the first 3,000 gallons and \$ 3.65 for each additional 1,000 gallons used thereafter. (Examples of Customers - schools without food preparation, day care centers, senior living facilities without food preparation, medical/dental clinics, theaters without food preparation, hair salons, clubs or bars without food preparation, hotels and motels without food preparation, car wash businesses with recyclable water systems, retail centers without food preparation or restaurants)

Commercial Large - Water

\$ 81.00 - for the first 3,000 gallons and \$ 3.80 for each additional 1,000 gallons used thereafter. (Examples of Customers - restaurants, fast food centers, retail

*Replaced with
Per Meter Size
Change*

centers with food courts or restaurants, senior living facilities with food preparation, clubs or bars with food preparation, laundries, car wash businesses without recyclable water systems, grocery stores with meat market and/or produce section and/or food preparation, meat markets, industrial process, hotels and motels with food preparation, convenience stores with food preparation or restaurants, service stations with car washes and/or food preparation, and all other commercial establishments that require grease traps per the City of Humble plumbing ordinance)

Bulk Water Rate

\$ 75.00 - for the first 3,000 gallons used and \$ 5.25 per additional 1,000 gallons used thereafter

Section 2. Sewer Rates

Residential and Multi-Family Dwellings - Sewer

\$ 26.00 - for the first 3,000 gallons used per unit and \$ 1.25 per additional 1,000 used thereafter based on an average of 3 months of winter bills - Dec., Jan. and Feb. New customers, with no historical usage, are billed for wastewater usage based on adopted average Standard Sanitary Wastewater Usage for residential customers during the months of Dec., Jan. and Feb. - currently 6,000 gallons

Residential Senior Citizen - Sewer

\$ 4.08 flat fee

Commercial Small - Sewer

\$ 41.00 - for the first 3,000 gallons and \$ 3.90 for each additional 1000 gallons used thereafter. (Examples of Customers - individual retail stores, churches without food preparation, offices and convenience stores without food preparation or restaurants, service stations without car washes and/or food preparations)

Commercial Medium - Sewer

\$ 47.50 - for the first 3,000 gallons and \$ 3.90 for each additional 1000 gallons used thereafter. (Examples of Customers - schools without food preparation, day care centers, senior living facilities without food preparation, medical/dental clinics, theaters without food preparation, hair salons, clubs or bars without food preparation, hotels and motels without food preparation, car wash businesses with recyclable water systems, retail centers without food preparation or restaurants)

Replaced with New Rates Based on 7/1/18

Commercial Large - Sewer

\$ 55.00 - for the first 3,000 gallons and \$ 4.00 for each additional 1000 gallons used thereafter. (Examples of Customers - restaurants, fast food centers, retail centers with food courts or restaurants, senior living facilities with food preparations, clubs and bars with food preparation, laundries, car wash businesses without recyclable water systems, grocery stores with meat market and/or produce section and/or food preparation, hospitals, theaters with food preparation, schools with food preparation, convenience stores with food preparation or restaurants, service stations with car wash and/or food preparations, and all other commercial establishments that require grease traps per the City of Humble Plumbing Ordinance)

Section 3. Water Tap Fees

Residential Water Tap

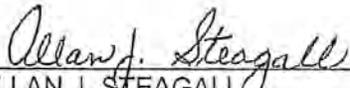

<u>Size of Meter</u>	<u>Type of Tap</u>	<u>New Fee</u>
3/4"	Short	\$ 950.00
3/4"	Long	\$ 1,425.00
3/4"	Street Cut	\$ 1,950.00
1"	Short	\$ 1,035.00
1"	Long	\$ 1,560.00
1"	Street Cut	\$ 2,060.00

Commercial Water Tap

<u>Size of Meter</u>	<u>Type of Tap</u>	<u>New Fee</u>
3/4"	Short	\$ 1,025.00
3/4"	Long	\$ 1,500.00
3/4"	Street Cut	\$ 2,075.00
1"	Short	\$ 1,135.00
1"	Long	\$ 1,660.00
1"	Street Cut	\$ 2,135.00
1 1/2 "	Short	\$ 1,425.00

Drought Contingency Plan for a Retail Public Water Supplier

Texas Commission on Environmental Quality

Instructions: The following form is a model of a drought contingency plan for a retail public water supplier. Not all items may apply to your system's situation. This form is supplied for your convenience, but you are not required to use this form to submit your plan to the TCEQ. Submit completed plans to: Water Supply Division MC 160, TCEQ, P.O. Box 13087, Austin TX 78711-3087.

City of Humble
(Name of Utility)

114 West Higgins, Humble, Texas 77338
(Address, City, Zip Code)

(CCN#)

1010004
(PWS#)

April, 2014
(Date)

Section I: Declaration of Policy, Purpose, and Intent

In order to conserve the available water supply and protect the integrity of water supply facilities, with particular regard for domestic water use, sanitation, and fire protection, and to protect and preserve public health, welfare, and safety and minimize the adverse impacts of water supply shortage or other water supply emergency conditions, the City of Humble hereby adopts the following regulations and restrictions on the delivery and consumption of water through an ordinance/or resolution.

Water uses regulated or prohibited under this Drought Contingency Plan (the Plan) are considered to be non-essential and continuation of such uses during times of water shortage or other emergency water supply condition are deemed to constitute a waste of water which subjects the offender(s) to penalties as defined in Section X of this Plan.

Section II: Public Involvement

Opportunity for the public to provide input into the preparation of the Plan was provided by the City of Humble by means of scheduling and providing public notice of a public meeting to accept the Plan.

Section III: Public Education

The City of Humble will periodically provide the public with information about the Plan, including information about the conditions under which each stage of the Plan is to be initiated or terminated and the drought response measures to be implemented in each stage. This information will be provided by means of direct mailings, published newspaper articles, the City's website, postings and public displays.

Section IV: Coordination with Regional Water Planning Groups

The service area of the City of Humble is located within the Region H and City of Humble has provided a copy of this Plan to the Region H.

Section V: Authorization

The City Manager, or his/her designee is hereby authorized and directed to implement the applicable provisions of this Plan upon determination that such implementation is necessary to protect public health, safety, and welfare. The City Manager or his /her designee shall have the authority to initiate or terminate drought or other water supply emergency response measures as described in this Plan.

Section VI: Application

The provisions of this Plan shall apply to all persons, customers, and property utilizing water provided by the City of Humble. The terms "person" and "customer" as used in the Plan include individuals, corporations, partnerships, associations, and all other legal entities.

Section VII: Definitions

For the purposes of this Plan, the following definitions shall apply:

Aesthetic water use: water use for ornamental or decorative purposes such as fountains, reflecting pools, and water gardens.

Commercial and institutional water use: water use which is integral to the operations of commercial and non-profit establishments and governmental entities such as retail establishments, hotels and motels, restaurants, and office buildings.

Conservation: those practices, techniques, and technologies that reduce the consumption of water, reduce the loss or waste of water, improve the efficiency in the use of water or increase the recycling and reuse of water so that a supply is conserved and made available for future or alternative uses.

Customer: any person, company, or organization using water supplied by the City of Humble

Domestic water use: water use for personal needs or for household or sanitary purposes such as drinking, bathing, heating, cooking, sanitation, or for cleaning a residence, business, industry, or institution.

Even number address: street addresses, box numbers, or rural postal route numbers ending in 0,

2, 4, 6, or 8 and locations without addresses.

Industrial water use: the use of water in processes designed to convert materials of lower value into forms having greater usability and value.

Landscape irrigation use: water used for the irrigation and maintenance of landscaped areas, whether publicly or privately owned, including residential and commercial lawns, gardens, golf courses, parks, and rights-of-way and medians.

Non-essential water use: water uses that are neither essential nor required for the protection of public, health, safety, and welfare, including:

- (a) irrigation of landscape areas, including parks, athletic fields, and golf courses, except otherwise provided under this Plan;
- (b) use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle;
- (c) use of water to wash down any sidewalks, walkways, driveways, parking lots, tennis courts, or other hard-surfaced areas;
- (d) use of water to wash down buildings or structures for purposes other than immediate fire protection;
- (e) flushing gutters or permitting water to run or accumulate in any gutter or street;
- (f) use of water to fill, refill, or add to any indoor or outdoor swimming pools or Jacuzzi-type pools;
- (g) use of water in a fountain or pond for aesthetic or scenic purposes except where necessary to support aquatic life;
- (h) failure to repair a controllable leak(s) within a reasonable period after having been given notice directing the repair of such leak(s); and
- (i) use of water from hydrants for construction purposes or any other purposes other than fire fighting.

Odd numbered address: street addresses, box numbers, or rural postal route numbers ending in 1, 3, 5, 7, or 9.

Section VIII: Criteria for Initiation and Termination of Drought Response Stages

The City Manager or his/her designee shall monitor water supply and/or demand conditions on a regular basis and shall determine when conditions warrant initiation or termination or termination of each stage of the Plan. Public notification of the initiation or termination of drought response stages shall be by means of publication in a newspaper of general circulation, direct mail to each customer, signs posted in public places, or other method reasonably calculated to notify the public of the plan. The triggering criteria described below are based on the City's anticipated ability to provide water to its customers based on known system capacity limits and the City's historical experience of operations in drought

Stage 1 Triggers -- MILD Water Shortage Conditions

Requirements for initiation

Customers shall be requested to voluntarily conserve water and adhere to the prescribed restrictions on certain non-essential water uses provided in Section IX of this Plan when:

1. Average Daily Water Usage reaches **70%** of safe distribution capacity for three (3) consecutive days, defined as **5.98 MGD daily usage rate**.
2. Director of Public Works determines that supply or delivery is under stress.

Requirements for termination

Stage 1 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 3 consecutive days.

Stage 2 Triggers -- MODERATE Water Shortage Conditions

Requirements for initiation

Customers shall be required to comply with the requirements and restrictions on certain non-essential water uses provided in Section IX of this Plan when:

1. Average Daily Water Usage reaches **80%** of safe distribution capacity for three (3) consecutive days, defined as **6.83 MGD daily usage rate**.
2. Director of Public Works determines that supply or delivery is under stress.

Requirements for termination

Stage 2 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 5 consecutive days. Upon termination of Stage 2, Stage 1 becomes operative.

Stage 3 Triggers -- SEVERE Water Shortage Conditions

Requirements for initiation

Customers shall be required to comply with the requirements and restrictions on certain non-essential water uses for Stage 3 of this Plan when:

1. Average Daily Water Usage reaches **85%** of safe distribution capacity for two (2) consecutive days, defined as **7.26 MGD daily usage rate**.
2. Director of Public Works determines that supply or delivery is under stress.

Requirements for termination

Stage 3 of the Plan may be rescinded when all of the conditions listed as triggering events have ceased to exist for a period of 5 consecutive days. Upon termination of Stage 3, Stage 2 becomes operative.

Section IX: Drought Response Stages

The City Manager, or his/her designee, shall monitor water supply and/or demand conditions on

a regular basis and, in accordance with the triggering criteria set forth in Section VIII of the Plan, shall determine that a mild, moderate, severe, or emergency condition exists and shall implement the following the following notification procedures:

Notification

Notification of the Public:

The City Manager or his/ her designee shall notify the public by means of:

publication in a newspaper of general circulation,
public service announcements,
signs posted in public places,
announcements on the City's website <http://www.cityofhumble.org/>

Additional Notification:

The City Manager or his/ her designee shall notify directly, or cause to be notified directly, the following individuals and entities:

Mayor and Members of the City Council
Fire Chief
TCEQ (required when mandatory restriction are imposed)
Parks / street superintendents & public facilities managers

Stage 1 Responses -- MILD Water Shortage Conditions

Target: Achieve a voluntary 5% percent reduction in daily water demand.

- (a) Water customers are requested to voluntarily limit the irrigation of landscaped areas to even-numbered days for customers with a street address ending in an even number (0, 2, 4, 6 or 8), and odd-numbered days for water customers with a street address ending in an odd number (1, 3, 5, 7 or 9), and to irrigate landscapes only between the hours of 12:00 a.m. to 6:00 a.m. and 9:00 p.m. to 12:00 a.m. on designated watering days.
- (b) All operations of the City of Humble shall adhere to water use restrictions prescribed for Stage 2 of the Plan.
- (c) Water customers are requested to practice water conservation and to minimize or discontinue water use for non-essential purposes.

Stage 2 Responses -- MODERATE Water Shortage Conditions

Target: Achieve a 15 percent reduction in daily water demand.

Mandatory Water Use Restrictions for Demand Reduction:

Under threat of penalty for violation, the following water use restrictions shall apply to all persons:

- (a) Irrigation of landscaped areas with hose-end sprinklers or automatic irrigation systems shall be limited to Sundays and Thursdays for customers with a street address ending in an even number (0, 2, 4, 6 or 8), and Saturdays and Wednesdays for water customers with a street address ending in an odd number (1, 3, 5, 7 or 9), and irrigation of landscaped areas is further limited to the hours of 12:00 midnight until 6:00 a.m. and between 9:00 p.m. and 12:00 midnight on designated watering days. However, irrigation of landscaped areas is permitted at anytime if it is by means of a hand-held hose, a faucet filled bucket or watering can of five (5) gallons or less, or drip irrigation system.
- (b) Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight. Such washing, when allowed, shall be done with a hand-held bucket or a hand-held hose equipped with a positive shutoff nozzle for quick rises. Vehicle washing may be done at any time on the immediate premises of a commercial car wash or commercial service station. Further, such washing may be exempted from these regulations if the health, safety, and welfare of the public is contingent upon frequent vehicle cleansing, such as garbage trucks and vehicles used to transport food and perishables.
- (c) Use of water to fill, refill, or add to any indoor or outdoor swimming pools, wading pools, or Jacuzzi-type pools is prohibited except on designated watering days between the hours of 12:00 midnight and 6:00 a.m. and between 8:00 p.m. and 12:00 midnight.
- (d) Operation of any ornamental fountain or pond for aesthetic or scenic purposes is prohibited except where necessary to support aquatic life or where such fountains or ponds are equipped with a recirculation system.
- (e) Use of water from hydrants shall be limited to fire fighting, related activities, or other activities necessary to maintain public health, safety, and welfare, except that use of water from designated fire hydrants for construction purposes may be allowed under special permit from the City of Humble.
- (f) The following uses of water are defined as non-essential and are prohibited:
 - 1. wash down of any sidewalks, walkways, driveways, parking lots, tennis courts, or other hard-surfaced areas;
 - 2. use of water to wash down buildings or structures for purposes other than immediate fire protection;
 - 3. use of water for dust control;
 - 4. flushing gutters or permitting water to run or accumulate in any gutter or

- street; and
5. failure to repair a controllable leak(s) within a reasonable period after having been given notice directing the repair of such leak(s).

Stage 3 Responses -- SEVERE Water Shortage Conditions

Target: Achieve a 20 percent reduction in daily water demand.

Water Use Restrictions for Demand Reduction:

All requirements of Stage 2 shall remain in effect during Stage 3 except:

- (a) Irrigation of landscaped areas shall be limited to designated watering days between the hours of 12:00 midnight and 6:00 a.m. and between 9:00 p.m. and 12:00 midnight and shall be by means of hand-held hoses, hand-held buckets, drip irrigation, or permanently installed automatic sprinkler system only. The use of hose-end sprinklers is prohibited at all times,
- (b) Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle not occurring on the premises of a commercial car wash and commercial service stations and not in the immediate interest of public health, safety, and welfare is prohibited.

Section X: Emergency Contingency Plan

In the event of a fire, flood, hurricane, lightning strike, tornado, windstorm, or any other act of God, terrorist act, or any other act of civil disobedience, or any other similar occurrence which results in the inability of the City to provide adequate potable water to Customers (or the likelihood thereof), the City Manager, at his/ her discretion may, without prior notice, invoke any or all of the Drought Response Measures set forth in this Plan as "Emergency Response Measures." The City Manager may establish any of the penalties set forth in Section XI for violations of the Emergency Response Measures.

Section XI: Enforcement

- (a) No person shall knowingly or intentionally allow the use of water from the City of Humble for residential, commercial, industrial, agricultural, governmental, or any other purpose in a manner contrary to any provision of this Plan, or in an amount in excess of that permitted by the drought response stage in effect at the time pursuant to action taken by City Manager, or his/her designee, in accordance with provisions of this Plan.
- (b) The following penalties shall apply to anyone violating the terms of this Plan or the Drought Response Measures or Emergency Response Measures adopted pursuant hereto:
 - (1) First Violation. Any person or entity who violates this Plan shall receive written notification of such violation, which notice shall set forth (i) the date of the violation, (ii) the nature of the violation, (iii) the Drought Response Measures then in effect, (iv) the

penalties applicable for any further violations of this Plan; provided, however, that if such person or entity has ever previously violated this Plan, the penalties set forth in Section 2 below, may, in the discretion of the City Manager, be imposed.

- (2) Subsequent Violations. Any person who violates this Plan is guilty of a misdemeanor and, upon conviction shall be punished by a fine not more than five hundred dollars (\$500.00). Each day that one or more of the provisions in this Plan is violated shall constitute a separate offense. If a person is convicted of three or more distinct violations of this Plan, the City Manager shall, upon due notice to the customer, be authorized to discontinue water service to the premises where such violations occur. Services discontinued under such circumstances shall be restored only upon payment of a re-connection charge, and any other costs incurred by the City of Humble in discontinuing service. In addition, suitable assurance must be given to the City Manager that the same action shall not be repeated while the Plan is in effect. Compliance with this plan may also be sought through injunctive relief in the district court.
- (c) Any person, including a person classified as a water customer of the City of Humble, in apparent control of the property where a violation occurs or originates shall be presumed to be the violator, and proof that the violation occurred on the person's property shall constitute a rebuttable presumption that the person in apparent control of the property committed the violation, but any such person shall have the right to show that he/she did not commit the violation. Parents shall be presumed to be responsible for violations of their minor children and proof that a violation, committed by a child, occurred on property within the parents' control shall constitute a rebuttable presumption that the parent committed the violation, but any such parent may be excused if he/she proves that he/she had previously directed the child not to use the water as it was used in violation of this Plan and that the parent could not have reasonably known of the violation.
- (d) Any employee of the City of Humble, police officer, or other employee designated by the City Manager, may issue a citation to a person he/she reasonably believes to be in violation of this Ordinance. The citation shall be prepared in duplicate and shall contain the name and address of the alleged violator, if known, the offense charged, and shall direct him/her to appear in the municipal court on the date shown on the citation. The alleged violator shall be served a copy of the citation. Service of the citation shall be complete upon delivery of the citation to the alleged violator, to an agent or employee of a violator, or to a person over 18 years of age who is a member of the violator's immediate family or is a resident of the violator's residence. The alleged violator shall appear in municipal court to enter a plea of guilty or not guilty for the violation of this Plan. If the alleged violator fails to appear in municipal court, a warrant for his/her arrest may be issued. A summons to appear may be issued in lieu of an arrest warrant. These cases shall be expedited and given preferential setting in municipal court before all other cases.

Section XI: Variances

The City Manager, or his/her designee, may, in writing, grant temporary variance for existing water uses otherwise prohibited under this Plan if it is determined that failure to grant such variance would cause an emergency condition adversely affecting the health, sanitation, or fire protection for the public or the person requesting such variance and if one or more of the following conditions are met:

- (a) Compliance with this Plan cannot be technically accomplished during the duration of the water supply shortage or other condition for which the Plan is in effect.
- (b) Alternative methods can be implemented which will achieve the same level of reduction in water use.

Persons requesting an exemption from the provisions of this Ordinance shall file a petition for variance with the City of Humble within 5 days after the Plan or a particular drought response stage has been invoked. All petitions for variances shall be reviewed by the City Manager or his/her designee, and shall include the following:

- (a) Name and address of the petitioner(s).
- (b) Purpose of water use.
- (c) Specific provision(s) of the Plan from which the petitioner is requesting relief.
- (d) Detailed statement as to how the specific provision of the Plan adversely affects the petitioner or what damage or harm will occur to the petitioner or others if petitioner complies with this Ordinance.
- (e) Description of the relief requested.
- (f) Period of time for which the variance is sought.
- (g) Alternative water use restrictions or other measures the petitioner is taking or proposes to take to meet the intent of this Plan and the compliance date.
- (h) Other pertinent information.

AGENDA ITEM #7

**CONTRACT FOR REPAIR AND MAINTENANCE
OF WATER WELL #6**

ALSAYWATER.COM

April 30th, 2014

City of Humble
Box 1627
Humble, TX 77347

Attention: Mark Knight
Reference: Well #6

Dear Mr. Mark Knight,

The following are recommendations, which are based on the second down-hole TV Survey and Pumping Equipment inspection for the City's Well No. 6. The second TV Survey following the successful wire brushing and jetting operation the screens still had a soft fill in the majority of the screens. I do not recommend a full acid treatment of the screens. Agitating chlorine into the screens and airlifting clear the majority of the soft blockage in the screens without the extra expense of acidizing the well.

The pump equipment was found to be in poor condition and it is our recommendation to re-build the pump bowl assembly with new bearings, bowl shaft and wear rings. The column assembly is recommended to be replaced. The enclosing tubes are deeply pitted and areas on the majority of the column pipe where pits are forming. As a reference, I have put together a cost to repair/replace parts of the old column assembly versus the cost for a new string.

Below is a cost estimate of up to date charges and recommended services hours and replacement parts. Please look over the list and contact me if you have any additional comments or questions. I estimate the pumping equipment and overhaul of the pump bowl assembly will take 2-3 weeks to be complete and ready for installation. The well can be cleaned and ready within that time frame.

Work Completed to Date:

Mobilize Service Rig and Crew	\$ 750.00	
Pull Pump and Bail Oil 16 Hrs @ \$345.00/Hr	\$ 5,520.00	
TV Survey	\$ 1,800.00	
Total		\$ 8,070.00

Mobilize to Wire brush	\$ 750.00	
35 Hours of Wire brushing @ \$325.00/ Hr	\$11,375.00	
10 hours to Jet Fill @ \$375.00 / Hr	\$ 3,750.00	
TV Survey	\$ 1,800.00	
Total to Date Well Cleaning		\$17,675.00

ALSAYWATER.COM

Recommended Well Cleaning

Insert & Agitate Chlorine in Screens	15 HRs @ \$325.00/Hr	\$4,875.00

AGENDA ITEM #8

**DEVELOPMENT PLAT – RANKIN ROAD
QUADS**

STATE OF TEXAS
COUNTY OF HARRIS

We, SRG PARTNERSHIP acting by and through, Steve Guinn, being an officer of SRG PARTNERSHIP, owner (or owners) hereinafter referred to as Owners (whether one or more) of the 0.8427 Acre tract described in the above and foregoing map of DEVELOPMENT PLAT RANKIN ROAD QUADS, do hereby make and establish said subdivision and development plan of said property according to all lines, dedications, restrictions, and notations on said maps or plat and hereby dedicate to the use of the public forever, all streets (except those streets designated as private streets, or permanent access easements), alleys, parks, water courses, drains, easements and public places shown thereon for the purposes and considerations therein expressed; and do hereby bind ourselves, our heirs, successors and assigns to warrant and forever defend the title on the land so dedicated.

FURTHER, Owners do hereby dedicate to the public a strip of land fifteen (15) feet wide on each side of the center line of any and all bayous, creeks, gullies, ravines, draws, sloughs or other natural drainage courses located in said plat, as easements for drainage purposes, giving the City of Humble, Harris County, or any other governmental agency, the right to enter upon said easement at any and all times for the purpose of construction and maintenance of drainage facilities and structures.

FURTHER, Owners do hereby covenant and agree that all of the property within the boundaries of this plat and adjacent to any drainage easement, ditch, gully, creek or natural drainage way shall hereby be restricted to keep such drainage ways and easements clear of fences, buildings, planting and other obstructions to the operations and maintenance of the drainage facility and that such obutting property shall not be permitted to drain directly into this easement except by means of an approved drainage structure.

IN TESTIMONY WHEREOF, SRG PARTNERSHIP has caused these presents to be signed by Steve Guinn, thereunto authorized, this 22nd day of April, 2014.

SRG PARTNERSHIP
