# STREET PROJECT

## Townsen West Improvements

### Project Description -

This project will add an additional two lanes to complete the Boulevard section west of Target shopping center to the north-south section of West Townsen Blvd.

### Engineers – ARKK Engineer, L.L.C.

Project Cost -        \$ 885,541 Bid  
                                  \$ 173,700 Eng.  
                                  \$ 1,059,241 Tot.

### Status –

The Contractor has completed the punch-list items and we are waiting for close-out documents.

### Townsen East Bound

### Townsen West Bound

# STREET PROJECT

## Willow Street & Jordan's Gully Improvements

### Project Description -

This project will include the paving, utilities and drainage improvements on Willow Street and the re-grading and improvements to Jordan's Gully from South Houston Avenue eastward for approx. 1,500 feet including the removal of the two existing driveways and replacing one of the existing driveways with larger culverts. Also west of South Houston Avenue for approx. 1,200 feet, the existing enclosed storm sewer will be removed and replaced with an open channel system along with a detention pond.

### Engineers – HDR Engineer, L.L.C.

Project Cost -

\$ 1,877,704.50 Bid
\$ 273,035.00 Eng.
\$ 38,650.00 CO#1
\$ 2,189,389.50 Tot

### Status –

Council approved the low bid in the amount of \$1,877,704.50 from G.W. Phillips Construction, Inc. at the October 17, 2013 Council Meeting. In the month of June, the contractor poured 644 sq. yds of 5" concrete slope paving, removed and disposed of 1811f of box culverts, removed and replace the box culverts under Houston Ave., removed and replaced 310 sq yds of 8" concrete paving, relocated 111' of 12" water line and relocated 85' of 10" sewer force main on Houston Ave., and installed 661' of 8" water line on Willow Street.

### Houston Avenue Crossing

### Jordan's Gully west of Houston Ave.

**STREET PROJECT**  
**2013 Asphalt Pavement Improvements**

**Project Description - Asphalt Pavement**

This Project includes the asphalt pavement improvements to Wilson Rd. from Will Clayton to Atascocita Rd. along with the replacement of the existing water line. This Project also includes asphalt pavement improvements to Railroad Avenue from Higgins to First St., Ave. D south of Staitti St., Ave. H from Main St. to Granberry, Granberry from Ave. H to Houston Ave., JL Ranchland side streets and Grace Lane.

**Engineers – ARKK Engineer, L.L.C.**

**Project Cost -**

Included with the Concrete Project

**Status –**

The Council amended the Engineering design Contract to ARKK Engineers, LLC at the April 11th, 2013 Council meeting. This project has been let for bids and we have scheduled to open bids on July 30, 2014. We will have a recommendation for Council at the first Council meeting in August.

**STREET PROJECT**  
**2013 Concrete Pavement Improvement**

**Project Description -**

This Project includes the Concrete Pavement Improvements to the area north of First St., bounded by Charles St., 7<sup>th</sup> St., and Houston Avenue, Higgins between Railroad Ave. and Hwy 59, Charles St. from Higgins to First St., South Memorial from Memorial to dead end, Bender and Township, Main St. from Railroad Ave. to Hwy. 59, Davis Street from South Houston to Main Street, Windswept from Montgomery to HCFCD Ditch. This project will also replace the water line at Inter-continental Village and various sidewalks within commercial and school areas.

**Engineers – ARKK Engineer, L.L.C.**

<b><u>Project Cost -</u></b>	\$ 13,092,500 Est
	<u>1,446,300 Eng</u>
	\$ 14,538,800 Est.Tot.

**Status –**

The Council amended the Engineering design Contract to ARKK Engineers, LLC at the August 22, 2013 Council meeting to include the additional work of decorative traffic, pedestrian signal and brick paver cross walks at the intersection of Higgins and Bender Avenue and Main St. and Bender Ave. The change also included the repaving of Anne Street from Sharon Dr. to the Dead End. The survey is completed and the Engineers have completed the design work and are waiting for approval from TxDot for the intersection connections to First Street. This project should be ready to let for bids in August of 2014.

## WATER PROJECTS

### First Street Utility Extension Project

#### Project Description -

This Project includes the extending the sanitary sewer along First Street from Wilson Road to the newly annexed property on the east City Limits. This project also include the relocation of the existing City of Houston's water meter from its present location and moving it to the newly annexed property on the east City Limits.

#### Engineers – ARKK Engineer, L.L.C.

<u>Project Cost -</u>	\$ 246,478.80 Bid
	<u>\$ 59,000.00 Eng</u>
	\$ 305,478.80 Tot.

#### Status –

The Council awarded the construction contract to Cruz Tec Inc. in the amount of \$246,478.80 at the June 12<sup>th</sup>, 2014 Council meeting. We will schedule a pre-construction meeting in early July and Contractor should start construction around the 1<sup>st</sup> of August.

## WATER PROJECTS

### TxDot Improvements to Business 1960

#### Project Description -

This project includes replacing the existing water lines along Business 1960 (First Street) from Avenue C to Wilson Road which are currently located under the pavement on First Street.

#### Engineers – ARKK Engineer, L.L.C.

Project Cost -           \$ 590,000.00 Est.  
                                      93,100.00 Eng  
                                      \$ 683,100.00 Est. Tot.

#### Status –

The Council awarded the Engineer's Contract to ARKK Engineers at the November 14, 2013 Council meeting in the amount of \$93,100. The Engineer has finalized the design of this project and waiting for approval from TxDot. This project will be ready for to let for bids in July 2014.

## **VEHICLE MAINTENANCE DEPARTMENT**

**Repairs on Vehicles: (135)**

**Scheduled Service: (16)**

**Number of Vehicles Serviced: (81)**

## **WATER & WASTEWATER OPERATION & TREATMENT DEPARTMENT**

### **Miscellaneous Water Operations: (5)**

- ◆ Monthly Maintenance
- ◆ U.S. Underwater started inspecting GST's and EST's at all well sites
- ◆ U.S. Underwater cleaned sediment out of EST at well #6
- ◆ Had annual laser alignment done on all booster pumps at all wells
- ◆ Alsay started putting pump, pipe, oil line, and motor in at well #6

### **Miscellaneous Wastewater Operations: (15)**

- ◆ Monthly Maintenance
- ◆ Started removing old concrete at Treatment Plant
- ◆ Replaced disconnect, meter can, weatherhead, and installed box for scada equipment
- ◆ Pulled pump #1 at N. Houston liftstation
- ◆ Installed new pump #1 at Wilson Rd liftstation
- ◆ Contractor started forming to pour concrete at Treatment Plant
- ◆ Installed motor on blower #4 at Treatment Plant
- ◆ Had digester blowers, building doors, office, office roof painted
- ◆ Poured concrete around beltpress area at Treatment Plant
- ◆ Fixed site glass for oil level on #2 thickner drive
- ◆ Huber Tech came and replaced seals, bearings, bushings, sleeves, etc on small step screen
- ◆ Pulled #1 at 1960 bypass liftstation
- ◆ Pulled pump #2 at Timberwood liftstation
- ◆ Replaced transformer, wire on blower #4 at Treatment Plant
- ◆ Replaced gear box on #2 thickner drive

### **Generators: (1)**

- ◆ Monthly Maintenance

### **Confined Space Entries: (0)**

- ◆ No confined entries performed in the month of May

**AGENDA ITEM #2E**

**CORRESPONDENCE**

# Legislative UPDATE

June 27, 2014  
Number 22

## **TML President Speaks to Legislature About Transportation**

On Monday, June 23, League President Jungus Jordan testified to the Senate Transportation Committee on interim charges related to transportation congestion and mobility. President Jordan focused on the need for cities to partner with state government to meet the needs of a growing population.

Since 1950, Texas population growth has far exceeded the national average. However, new Interstate highway construction hasn't come close to keeping pace, according to Mr. Jordan. He stressed to the committee's chairman, former Jacksonville Mayor and now Senator Robert Nichols, that the League is committed to support new state strategies that would fund new transportation infrastructure development.

Mr. Jordan also explained that the League is supportive of Speaker Joe Straus's initiative to end non-transportation related diversions from the state highway fund. The League's board is considering adopting a resolution in favor of diversion reform at its meeting on June 27 in Fort Worth.

To view Mr. Jordan's testimony, click [here](#) and fast forward to two hours and 34 minutes.

## **Sunset Advisory Commission Recommends Eliminating Code Enforcement Officer Licensing Program**

The Texas Sunset Advisory Commission is a state agency led by a group of state representatives and senators. The "sunset" process is simply a periodic review of state agencies to ensure that they are performing efficiently and/or whether they should be changed or eliminated. Sunset staff "performs extensive research and analysis to evaluate the need for, performance of, and

improvements to the agency under review.” The review typically results in legislation to implement the recommendations of the commission.

During the current sunset cycle, the Texas Department of State Health Services (DSHS) is under review. One issue has resulted in a recommendation that would affect cities. “Issue 3” in the [staff report](#) concludes that “the unmanageable scope of DSHS’s regulatory functions reduces needed focus on protecting public health.”

Why is that recommendation relevant to cities? One component of DSHS’s regulatory functions is the “Code Enforcement Officer Licensing Program.” The program is a voluntary licensing scheme that allows an applicant with a GED or high school diploma and at least one year or more of experience in the field of code enforcement who successfully completes training and passes an exam to use the title of “Code Enforcement Officer.” (No other person, even if performing the same job with a city, can use the title.) There are currently 2,201 licensed code enforcement officers in the state.

According to the Sunset staff report:

[T]he state establishes qualifications to determine who can perform these jobs and the standards by which they must be performed, and then enforces these standards. Such significant intrusions into the workplace must be justified by a clear threat to the health, safety, or welfare of the public.

Even with such detailed analysis, any attempt to scale back or streamline state regulation is difficult due to an array of factors that seem to favor the creation and perpetuation of regulatory programs...[t]hese factors include the active interest of the regulated community to be regulated and to exert control once regulation has been established...

Sunset staff found that “continued regulatory expansion combined with shrinking resources has created an unmanageable undertaking and ineffective structure at DSHS.” They believe that fulfilling multiple responsibilities with limited resources means high-risk programs are stretched thin and low-risk programs are forced to the margins. Because of the magnitude of any potential decision to deregulate an activity or occupation, Sunset staff concluded that only programs meeting a number of criteria would be considered for “deregulation” (i.e. elimination). The following chart shows the criteria related to code enforcement officer licensing:

***Programs to Discontinue***

<b>Criteria</b>	Would deregulation have little impact on public health or safety?	Do practitioners operate in a highly regulated environment?	Is regulation also provided by another state or local regulatory program, or private sector accreditation?	Does the program generate little regulatory activity?	Can consumers access enough information to make informed choices regarding this industry or field?	Does the program merely prohibit the use of a title, making regulation optional?
<b>Programs</b>	<b><i>Occupational</i></b>					

Code Enforcement Officers	x		x	x		x
---------------------------	---	--	---	---	--	---

According to the report, “[s]ome programs merely prohibit the use of a title, making regulation optional.” That is what the current code enforcement officer licensing scheme does. Pursuant to that logic, the staff recommended eliminating the program.

Interestingly, DSHS is essentially self-funded. This means that it pays for itself by imposing fees on those it regulates. As with other state agencies, the recent state budget trend has been to impose a “hidden tax” on those being regulated. (For example, the Texas Commission on Fire Protection generates – from fees on firefighters that are typically paid by cities – an additional \$3 million that goes to fund general state operations.) The staff recommendation to eliminate the programs would actually cost the state’s general fund \$1.6 million per year. That’s because DSHS would “no longer [be] collecting excess fees from the deregulated programs that are currently deposited in the general revenue fund.” In plain English, this all means that code enforcement officers (cities) have been voluntarily paying a “hidden state tax” through higher than necessary certification fees.

The Sunset Commission has sent the code enforcement officer issue to a subcommittee for further review. The League will seek input from its General Government Legislative Policy Committee on August 15 to determine the recommended position on the issue.

### **Austin Court of Appeals:** **City-Related Email in Personal Account is Public Information**

The Austin Court of Appeals recently decided [Adkisson v. Abbott](#), a Public Information Act case. The court concluded that: (1) a county commissioner’s emails about public business that were sent and received on his private account are public information; and (2) the emails are owned by and held for the county.

The court’s conclusion that the emails are public information is consistent with the attorney general’s long-held interpretation of the Act. Thus, is not terribly surprising. Moreover, the court’s opinion is essentially a moot point because of 2013 amendments to the Act in S.B. 1368. That bill makes public all emails regarding public business, regardless of whether they are on personal or governmental email accounts.

The court’s conclusion that the emails were owned by and held for the county is of greater interest because governmental entities have struggled over: (1) whether they can force officials and employees to turn over emails in private accounts; and (2) the possible consequences for not doing so.

The court held that, under the Local Government Records Act and the county’s record retention policies, the county owns the emails. Significant to the court’s decision is the fact that the

commissioner “is the officer for public information and the custodian, as defined by Section 201.003, Local Government Code, of the information created or received by” his office. Because city councilmembers do not have these same statutory obligations, the opinion may not offer much guidance as to whether a city “owns” a city councilmember’s private account emails.

Though the court dismissed arguments about the commissioner’s privacy interests, it offered some general observations that are relevant to city officials. First, the court notes that, when elected, the commissioner relinquished some of the privacy expectations of a private citizen, at least with regards to his work as a commissioner. Second, the court concludes that, while an official may have some reasonable expectation of privacy in his personal information, there is no right to privacy protecting public information just because it’s kept in a personal email account.

## **Court Again Affirms Municipal Authority to Require Utility Relocation for Public Projects**

A state district court has yet again affirmed municipal authority to require private utilities to relocate their facilities for public projects.

In 2006, the City of Richardson renewed its electric franchise agreement with TXU Electric (now Oncor). The franchise required the relocation of Oncor’s facilities – at Oncor’s cost – when required for city construction projects.

In 2010, pursuant to franchise terms, the city requested that Oncor relocate its utility poles in 32 alleys for reconstruction and widening. Oncor refused to do so.

In 2012, the city filed suit in state district court in Dallas to enforce the franchise provisions and – alternatively – to enforce the common law rule on relocation. The common law rule has come from court opinions over the years that have concluded that the public’s right to use streets is paramount to a private company’s. (In addition, state law contains a provision that requires relocation for the widening of a “street.” Part of Oncor’s dispute is that an “alley” isn’t a street.)

The court recently ordered summary judgment in favor of the city on all issues. The suit seems to simply be another in a long and storied dispute between cities and some utility providers over right-of-way issues, and the court’s decision may be appealed.

## **Proposed TxDOT Billboard Rules: Billboard Height**

Current Texas Department of Transportation (TxDOT) rules limit billboard height along state highways to a maximum of 42.5 feet. TxDOT has proposed rules that would allow a maximum height of 65 feet. The taller maximum would include signs within a city’s limits, unless the city’s ordinances prohibit signs or limit their height to some lesser maximum height.

City officials who are concerned about the regulation of billboard height should review their sign ordinance to ensure that the maximum height in the ordinance is appropriate for their community. (Once a sign is constructed under the city's and/or state's current rules, it is expensive and administratively difficult to have the sign's height reduced or placement changed.)

The proposed rules are available at:

<http://www.sos.state.tx.us/texreg/archive/June132014/Proposed%20Rules/43.TRANSPORTATION.html#93>

Written comments can be sent to the Texas Transportation Commission until July 14, 2014. Please contact Laura Mueller at the TML Legal Department at 512-213-7400 or [laura@tml.org](mailto:laura@tml.org) with any questions regarding the proposed rules or sign regulation in general.

## **EPA Proposes Rule Clarifying “Waters of the U.S.”**

U.S. Supreme Court opinions issued in 2001 and 2006 made determining which “waters of the U.S.” (e.g., bodies of water) are subject to federal Clean Water Act protections difficult. (Some argued that “puddles” near streams could even be subject to the law.)

In response to the confusion, the U.S. Environmental Protection Agency (EPA) and the U.S. Army Corps of Engineers have recently published a proposed “Waters of the U.S.” rule to clarify how the federal Clean Water Act should apply to streams and wetlands.

The EPA has extended the public comment period for the Waters of the U.S. proposed rule to October 20, 2014. Information about the proposed rule, including how to file a comment, can be found at [www.epa.gov/uswaters](http://www.epa.gov/uswaters).

The National League of Cities, along with other national local government organizations, has submitted comments on behalf of cities seeking additional time and scientific data prior to the proposed rule adoption. Those comments are available at:

<http://www.nlc.org/Documents/Influence%20Federal%20Policy/Advocacy/Regulatory/NACo%20NLC%20USCM%20Waters%20of%20the%20US%20Connectivity%20Response%20letter.pdf>

League Staff will continue to monitor and report on this rulemaking process.

## **Speaker Straus Creates Select Committee on Economic Development Incentives**

Texas House Speaker Joe Straus recently created the Select Committee on Economic Development Incentives, which will assess the economic benefit provided by state and local

incentive programs and make recommendations to make those programs more effective and efficient. The committee will determine the types of economic development projects that offer the most benefit to the state and suggest opportunities to focus on those projects.

Specifically, the committee is charged to:

1. Determine the types or categories of economic development projects that provide the greatest benefit to the state and make recommendations on or target the types or categories of economic development projects that provide the greatest long-term benefit to the state.
2. Catalog and evaluate economic development incentive grants awarded at the state level and assess their relative success, recognizing adjustments or modifications made to the initial criteria outlined in the award contracts.
3. Examine the agencies administering economic development incentive programs and make recommendations about where consolidating or moving functions improves efficiency.
4. Identify any problems in coordination between state and local economic development entities and make recommendations to improve coordination where beneficial.
5. Review best practices of economic development incentive programs and make recommendations on changes to existing programs where appropriate.

The committee will be chaired by Angie Chen Button (R – Richardson). Eddie Rodriguez (D – Austin) will serve as vice chair. The members include:

- Trent Ashby (R – Lufkin).
- Joe Deshotel (D – Beaumont).
- John Kuempel (R – Seguin).
- Jodie Laubenberg (R – Murphy).
- J.M. Lozano (R – Kingsville).
- Borris Miles (D – Houston).
- Poncho Nevarez (D – Eagle Pass).
- René Oliveira (D – Brownsville).
- Mary Ann Perez (D – Houston).
- Drew Springer (R – Muenster).
- Jason Villalba (R – Dallas).

The League will monitor the committee's work and report as necessary.

## **Resolutions for the 2014 TML Annual Conference**

The TML Constitution states that resolutions for consideration at the Annual Conference must be submitted to the TML headquarters 45 calendar days prior to the first day of the Annual Conference. For 2014, this provision means that resolutions from any member city, TML region,

or TML affiliate must arrive at the TML headquarters no later than 5:00 p.m. on **August 18, 2014**.

The TML Board of Directors has adopted several procedures governing the resolutions process. Please review the following items carefully and thoroughly.

1. No resolution may be considered by the TML Resolutions Committee unless it has prior approval of: (a) the governing body of a TML member city; (b) the governing body or membership of a TML affiliate; or (c) the membership of a TML region at a regional meeting.
2. TML member cities, regions, and affiliates that wish to submit a resolution **must** complete a resolution cover sheet. The cover sheet is available [here](#). Please feel free to make as many copies of this cover sheet as you desire. The cover sheet must be attached to the resolution throughout each step of the resolutions process.
3. It is recommended that any resolution state one of four categories to better direct League staff. Those categories are:
  - **Seek Introduction and Passage** means that the League can attempt to find a sponsor, will provide testimony, and will otherwise actively pursue passage. Bills in this category are known as “TML bills.”
  - **Support** means the League will attempt to obtain passage of the initiative if it is introduced by a city or some other entity.
  - **Oppose**.
  - **Take No Position**.

Please see the [2014 TML Legislative Policy Development Process](#) for more information.

4. Resolutions submitted will be thoroughly discussed at the TML Annual Conference. The Resolutions Committee is appointed by the TML President and is made up of city officials from TML member cities across the state.
5. The city, region, or affiliate that submits a resolution is encouraged to send a representative to the Resolutions Committee to explain the resolution. The Resolutions Committee will meet at **2:00 p.m.** on **Tuesday, September 30, 2014**, at the **George R. Brown Convention Center in Houston**.

If the procedures described above are not followed for any given resolution, that resolution is likely to be referred to some other TML committee for further study. In that case, the resolution would not be adopted during the 2014 conference.

Under the TML Constitution, resolutions received after the deadline of August 18, 2014, must not only have the attached cover sheet, but also must “state the reason precluding timely submission.” These late resolutions may be considered by the TML Resolutions Committee at the Annual Conference only if two-thirds of the Committee members present and voting agree to suspend the submission rule and consider the resolution.

Resolutions may be submitted by mail, fax, or email to Scott Houston, Deputy Executive Director and General Counsel, at:

1821 Rutherford Lane, Suite 400  
Austin, Texas 78754  
Fax: 512-231-7490  
Email: [shouston@tml.org](mailto:shouston@tml.org)

The information above, as well as subject-matter briefing materials and additional information, is available on at [www.tml.org](http://www.tml.org) by clicking on “Legislative Information” and then “Policy Committees” from that dropdown menu.

If you have any questions or would like any assistance, please call 512-231-7400 at any time.

## **Payday Lending Clearinghouse Updates**

The League’s “Payday Lending Clearinghouse” webpage, available at [www.tml.org/payday-updates](http://www.tml.org/payday-updates), includes information related to the regulation of payday and auto title lenders. It is updated from time-to-time to reflect recent developments. Interested city officials should note that the list of cities that have adopted regulations is expanding. An updated list is available on the webpage.

*TML member cities may use the material herein for any purpose. No other person or entity may reproduce, duplicate, or distribute any part of this document without the written authorization of the Texas Municipal League.*

# Legislative UPDATE

July 3, 2014  
Number 23

## **TML Board Supports Ending Transportation “Diversions”**

On June 27, the League’s board of directors adopted a [resolution](#) in support of Texas House Speaker Joe Straus’ plan to end the state’s continuing “diversions” of transportation revenue to non-transportation programs.

The legislature currently diverts hundreds-of-millions in revenue from the state gas tax and other sources to fund other state programs, such as the Department of Public Safety. In a recent op-ed, the Speaker announced his desire to end the practice next session.

The League has, for many sessions, supported the idea. The following press release was issued after the board of directors adopted the resolution:

FOR IMMEDIATE RELEASE  
June 30, 2014

### **TML backs Speaker’s goal to end transportation revenue diversions**

AUSTIN—The Texas Municipal League has adopted a resolution in support of House Speaker Joe Straus’ goal of ending the diversion of State Highway Fund money to non-transportation uses.

“We wholeheartedly agree revenues collected for transportation should be spent on transportation,” said TML President Jungus Jordan of Fort Worth. “State and Federal

funding for highways and transit projects has fallen far short of meeting the needs of our rapidly growing population. The continued economic viability of Texas and quality of the life of our citizens is dependent on efficient mobility.”

According to Speaker Straus, using the State Highway Fund exclusively for transportation would increase funding for roads by about \$1.3 billion over two years.

The Speaker recently announced he will propose a state budget next year that uses all of the money in the State Highway Fund for transportation instead of sending some of those dollars to other state agencies.

TML supported ending the diversion of transportation revenue in the organization’s legislative program for the 2013 legislative session, and Jordan said he will recommend that it be included again when TML adopts its issue positions for the 2015 session.

“We look forward to working with Speaker Straus and partnering with the state to address our transportation needs,” Jordan said.

## **House Land and Resource Management Committee**

On June 30, the House Land and Resource Management Committee met to consider the following charge:

Study current regulatory authority available to municipalities in their extraterritorial jurisdiction. Examine how citizens are involved in the zoning process, and make necessary recommendations to ensure a proper balance between development activities, municipal regulations, and the effect zoning decisions have on Texas citizens.

The committee has considered similar charges each session in recent memory. The brief hearing essentially consisted of a number of landowner, developer, and homebuilder complaints about the actions of a handful of cities. League staff and city officials testified that keeping land use decisions local is the best public policy.

Based on committee member comments, next session could see legislation filed that would:

1. prohibit cities from enforcing building codes in their extraterritorial jurisdiction;
2. allow individual property owners to opt-out of municipal zoning regulations on their property; and
3. require a favorable election in an area prior to that area being annexed.

When considering the appropriate balance between property rights and municipal authority, lawmakers should consider that more than 86 percent of Texans now live in urban areas.

That’s more than 20 million people living and working in close quarters. It follows that cities (the level of government closest to the people) should retain their authority to enact thoughtful

and reasonable land use and other regulations to protect property values and the health and safety of their residents.

## **How the *Hobby Lobby* Decision Could Affect Cities**

The U.S. Supreme Court recently decided *Burwell v. Hobby Lobby Stores, Inc.*, a case involving a religious freedom challenge against the Affordable Care Act's contraception mandate. In the case, the owners of Hobby Lobby and Conestoga Wood Specialties, two closely-held corporations, claimed their religious rights were infringed by the mandate. The Court held that, as applied to closely-held corporations, the contraceptive mandate violated the Religious Freedom Restoration Act of 1993 (RFRA).

RFRA prohibits the “[g]overnment from substantially burdening a person’s exercise of religion” unless the government can show the burden is in furtherance of a compelling governmental interest and is the least restrictive means of furthering that interest. Until this case, it was not clear that RFRA could apply to regulations that govern the activities of closely-held, for-profit corporations. In other words, courts disagreed as to whether such an entity could qualify as a “person” who actually exercises religion.

While this case does not deal with a core city issue, its holding has implications for cities because of RFRA’s sister statute, the Religious Land Use and Institutionalized Persons Act of 2000 (RLUIPA). RLUIPA imposes the same general test as RFRA, but – so far as Texas cities are concerned – applies only to land use regulations. (In the legally-complex 1997 case of *City of Boerne, Texas v. Flores*, the U.S. Supreme Court held RFRA unconstitutional as it applies to municipal land use regulations. RLUIPA is an attempt to “re-enact” those provisions.)

Up to this point, RLUIPA typically allowed only a religious congregation to challenge a city’s land use regulations. After *Hobby Lobby*, some fear that for-profit corporations may now claim religious protections from municipal land use regulations.

In her *Hobby Lobby* dissent, Justice Ginsburg, citing to an amicus brief submitted by the National League of Cities, acknowledges the potential implication for cities:

“[I]t is...strange to attribute to RLUIPA any purpose to cover entities other than ‘religious assembl[ies] or institution[s].’ That law applies to land-use regulation. To permit commercial enterprises to challenge zoning and other land-use regulations under RLUIPA would ‘dramatically expand the statute’s reach’ and deeply intrude on local prerogatives, contrary to Congress’ intent.”

Just how dramatic this expansion could be remains to be seen.

## **Water Development Board Seeks Comments on Water Funding**

In 2013, the passage of H.B. 4 and S.J.R. 1 created the State Water Implementation Fund for Texas (SWIFT) to help finance projects in the state water plan and to provide ongoing state financial assistance for water suppliers.

H.B. 4 requires that the Texas Water Development Board (TWDB) adopt rules for the use of SWIFT funds. The TWDB recently authorized the publication of proposed rules relating to the disbursement of SWIFT funds. (The rules are scheduled to be published in the July 11, 2014, edition of the *Texas Register*.)

Prior to drafting the proposed rules, the TWDB held two informal stakeholder meetings in Austin and four board meetings around the state during which interested parties were given the opportunity to provide public comments. After formal publication in the *Texas Register*, the TWDB will conduct additional, formal work sessions around the state to accept public comments. Those work sessions are scheduled for:

- July 24, 2014, in San Antonio;
- August 13, 2014, in San Angelo; and
- August 21, 2014, in Arlington.

More information on the location and time will be available on the TWDB's website at <http://www.twdb.texas.gov>.

The following are key provisions of the proposed rules that are of interest to cities:

- H.B. 4 requires that at least 10 percent of SWIFT funds be set aside for projects benefitting rural political subdivisions and agricultural water conservation. The proposed rules use the definition of "rural political subdivision" that is contained in Section 15.992 of the Water Code, which provides that a city with a service area of 10,000 or less in population is considered a rural political subdivision.
- H.B. 4 also requires that at least 20 percent of SWIFT funds support projects for water conservation and reuse. The definition of "water conservation" in the proposed rules was taken from Chapter 15 of the Water Code: "[T]hose practices, techniques, and technologies that will reduce the consumption of water, reduce the loss or waste of water, improve the efficiency in the use of water, or increase the recycling and reuse of water so that a water supply is made available for future or alternative uses."
- The proposed rules establish a prioritization system for projects. The executive administrator will prioritize applications for funding based on a point system. The maximum number of points an application can receive is 50 points. A project will earn points based on: (1) whether the population served is large, with greater populations served receiving more points; (2) whether the project serves a diverse urban and rural population; (3) whether the project serves additional entities in the region; and (4)

whether the project meets a high percentage of the water supply needs of users, with a higher percentage of need met receiving more points.

- SWIFT funds will be available for the planning and design phase of a project, along with funding the construction of the project.
- The proposed rules do not include a rule related to the prioritization of projects by the regional water planning groups. The TWDB intentionally left this out of the proposed rules to allow more flexibility for the regional planning groups.

League staff has been monitoring this process and will continue to do so. Interested cities should participate in the process now.

Once the draft rules are published in the *Texas Register*, the formal comment period is officially open and will continue until September 1, 2014. Interested parties can view the rules and submit comments on the TWDB website at <http://www.twdb.texas.gov/> or by emailing comments to [rulescomments@twdb.texas.gov](mailto:rulescomments@twdb.texas.gov).

*TML member cities may use the material herein for any purpose. No other person or entity may reproduce, duplicate, or distribute any part of this document without the written authorization of the Texas Municipal League.*

**PUBLIC RECORDS FEE SCHEDULE**

**CITY OF HUMBLE**

**RESOLUTION NO. 14-736**

**A RESOLUTION OF THE CITY OF HUMBLE, TEXAS, ESTABLISHING A FEE SCHEDULE FOR PUBLIC RECORDS REQUESTS AND PROVIDING AN EFFECTIVE DATE.**

WHEREAS, Title 1§70.3 of the Texas Administration Code establishes a rate schedule in which government bodies can determine charges to provide copies of public information; now therefore

**BE IT RESOLVED, BY THE CITY COUNCIL OF THE CITY OF HUMBLE TEXAS:**

Section 1: The City Council of the City of Humble, Texas hereby adopts the following rate schedule under §70.3 of the Texas Administrative Code attached hereto as “Attachment A.”

Section 2: The City Secretary is authorized to grant a waiver or reduction for charges for providing copies of public information pursuant to §552.267 of the Texas Government Code

(A) A governmental body shall furnish a copy of public information without charge or at a reduced charge if the governmental body determines that waiver or reduction of the fee is in the public interest because furnishing the information primarily benefits the general public; or

(B) If the cost to the governmental body of processing the collection of a charge for a copy of public information will exceed the amount of the charge, the governmental body may waive the charge.

Section 3: This resolution is effective immediately upon its passage.

PASSED, APPROVED, AND RESOLVED this the 10<sup>th</sup> day of July 2014.

**AGENDA ITEM #5**

**CONCRETE AND ASPHALT PAVEMENT**  
**IMPROVEMENTS PROJECT CONTRACT**  
**AMENDMENT**

July 3, 2014

Mr. Barry K. Brock  
Director of Public Works  
City of Humble  
102 Granberry  
Humble, Texas 77338

Re: Contract Amendment for Engineering Services for 2013 Concrete & Asphalt Pavement Improvements Project.

Dear Mr. Brock:

As discussed, ARKK Engineering is requesting an amendment to the existing contract for performing additional survey, signal design and tree protection plans at requested locations for work to be added to the design of the Concrete and Asphalt Pavement Improvement Projects.

The additional survey consist of providing topographical survey for the proposed sidewalk around the McDonalds at Wilson and Will Clayton Parkway, traffic signal improvements at Wilson Road and Isaacks Road, and additional parking at the Civic Arena.

This amendment will also add money to the contract to cover the cost of the sub-contractors providing the design of the signal improvements at Wilson Rd. and Isaacks Rd. and the tree protection plans prepared for the paving improvements along Main St., Anne St., and Windswept.

As we discussed, ARKK Engineers is not requesting or charging the City of Humble any additional fees for the design of the sidewalk or the additional parking and detention improvements at the Civic Center. We are requesting that the fees we have to pay our sub-consultants to provide the information necessary to complete the design be added to the contract in order that we can be reimbursed these costs per the contract.

The adjustment to the contract fees is the addition of the following amounts to the existing contract:

Survey	\$16,525.00
Traffic Signal Design	\$27,750.00
Tree Protection Plans	<u>\$ 3,600.00</u>
<b>Total Contract Amendment</b>	<b>\$47,875.00</b>

ARKK Engineers appreciates the opportunity the City of Humble has given us and we look forward to continuing our work with the City of Humble.

Sincerely,

ARKK Engineers, LLC

John D. Rudloff, P.E.  
Principal
