Legislative UPDATE

February 13, 2015
Number 7

Revenue Caps: City Officials Should Act Now

League staff has learned that senators who support the dangerous revenue cap bill, S.B. 182, are already attempting to count votes on the senate floor. (It's also possible that the revenue cap bill could be rolled into broad property tax relief legislation being considered.) Accordingly, city officials should immediately contact their senators and express their concern with this risky idea.

Click [here](#) for the League's latest talking points about the harmful effects of a four percent revenue cap. The document shows examples of how a revenue cap could have affected various member cities based on their 2013 tax rates as reported by the comptroller and public budget documents. City officials are encouraged to produce similar numbers for their own cities as they prepare to speak with their senators. (We would also urge you to share your numbers with Bill Longley, Legislative Counsel, at bill@tml.org or contact him if you have any questions about the methodology.)

Cities (and counties) aren't the problem when it comes to property taxes. The state's ever-increasing reliance on property taxes to fund schools is the problem.

Call to Action:
**Senate Committee to Consider Texas Commission on Fire
Protection Budget**

The Senate version of the proposed state budget, S.B. 2, contains a provision (called a “revenue rider”) that requires the Texas Commission on Fire Protection to raise an additional \$3 million above its operating costs to be transferred to the state’s general revenue fund for general state spending.

House budget writers have removed the revenue rider from the proposed House budget, HB 1. Presumably they did so because they recognize that the revenue rider is nothing more than a hidden tax on city firefighters. And who pays for firefighter certification in most cities? The city does. Thus, the Senate’s budget includes a hidden tax on city residents.

The Senate Finance Committee will consider this issue on February 23. If you are concerned with this hidden tax, and your senator serves on the Finance Committee, now is the time to ask him or her to remove “Rider 2” from the commission’s bill pattern.

Committee membership and other important information on this hearing is available at:
<http://www.capitol.state.tx.us/Committees/MembershipCmte.aspx?LegSess=84R&CmteCode=C540>

**Texas A&M Transportation Institute Seeking City Input on
Transportation Reinvestment Zones**

The Texas A&M Transportation Institute (TTI) is conducting a study to assess the extent to which cities throughout the state have pursued a transportation reinvestment zones (TRZ) to fund transportation projects.

Part of this research will include speaking with elected and appointed city officials who have considered or may be pursuing TRZ financing in their communities. TTI would like to learn more about your experiences with TRZs as a potential funding and financing mechanism in your city.

If you are interested in participating in this research, please contact Dr. Rafael Aldrete at r-aldrete@tamu.edu.

TML E-List Project: Choose Your Area of Interest

The Texas Municipal League is once again implementing the TML E-List project by gathering email addresses from city officials (elected and appointed) who: (1) may be willing to provide

testimony during the 2015 legislative session; (2) want to be kept “in the loop” on certain subject matters; and/or (3) are willing to simply provide their perspective on a particular legislative matter.

The “E-lists” are one way TML staff contacts city officials regarding harmful legislation and are an invaluable grassroots tool. In many cases, bills will be set for committee hearings with essentially no notice. When that happens, an email will go out to the appropriate E-list asking for information or action on your part. Legislators need to hear from their city officials more than from TML staff.

To participate in the E-List project, go to <http://www.tml.org/genform/E-List.asp> and fill out the online form. If you have any questions, please contact JJ Rocha at jj@tml.org or 512-231-7400.

Legislative UPDATE

February 20, 2015
Number 8

Revenue Caps: Communicate with Your Legislators

League staff has learned that senators who support the dangerous revenue cap bill, S.B. 182, are already attempting to count votes on the senate floor. (It's also possible that the revenue cap bill could be rolled into broad property-tax relief legislation being considered.) Accordingly, city officials should immediately contact their senators and express concern with this risky idea.

Some legislators have said that they aren't hearing opposition from the cities in their respective districts. Click [here](#) for an example resolution opposing revenue cap legislation. Cities that adopt the resolution should send it to the legislators and copy the TML Legislative Department at legislative@tml.org or 1821 Rutherford Lane, Suite 400, Austin, Texas 78754.

Cities (and counties) are not the problem when it comes to property taxes. The state's ever-increasing reliance on property tax revenue to fund schools is the problem.

Survey Results Favor Local Decision Making

The League recently participated in a statewide opinion poll that included questions related to city and county authority. The poll results clearly indicate Texas voters overwhelmingly support local-level governmental decision making, rather than state or federal, on taxing and spending matters. Page 4 of the poll [results](#) provides a percentage-based look at how participants responded to each poll question, followed by a more detailed data analysis on Page 5.

Court Upholds Attorney-Client Privilege Under Public Information Act

In [City of Dallas v. Paxton](#), the Corpus Christi Court of Appeals held that, even if a city fails to follow the procedural requirements of the Public Information Act (PIA), attorney-client privileged information may be withheld from public disclosure.

When a city seeks to withhold information from the public, but misses a procedural deadline under the PIA, there are two possible results:

- If the information is “confidential by law,” it may be withheld regardless of the failure to follow the PIA procedures. These are called “mandatory exceptions” and may not be waived. For example, a social security number is confidential by law and may never be released in response to a request.
- If the information is protected under a “permissive (discretionary) exception” and the city misses the PIA deadline, it must be released to the public. For example, a city may wish to withhold information related to a law enforcement investigation for obvious reasons, but it is not required to do so. If the city misses its PIA deadline, the information is “deemed” public.

For many years, the attorney general has concluded that the attorney-client privilege is a permissive (discretionary) exception. That meant, for example, if a city failed to timely request a ruling regarding attorney-client privileged communications, the communications had to be released to the public.

[City of Dallas v. Paxton](#) and another recent case out of the Austin Court of Appeals, [Abbott v. City of Dallas](#), protect the sanctity of attorney-client privilege and work to reverse what many have long perceived as an overly restrictive interpretation of the PIA by the attorney general.

City Officials Testify

When the legislature is in session, nothing compares to the effectiveness of city officials testifying at the Capitol. City officials who take their time to travel to Austin to speak out on important city issues should be applauded by us all. The League extends its thanks to all those who have vigilantly represented cities during the legislative session.

WATER CONSERVATION
AND
DROUGHT CONTINGENCY PLAN

for

CITY OF HUMBLE, TEXAS

UPDATED
April 2014
ARKK JOB NO. 14-002

Prepared by:

CITY OF HUMBLE WATER CONSERVATION PLAN

Section 1. Approval of the Plan. The City of Humble hereby approves and adopts this Plan as set forth, and the provisions of such Plan shall be implemented immediately and enforced as rules of the City.

Section 2. Declaration of Policy, Purpose and Intent. The purpose of the Plan is to promote the efficient and responsible use of water by (1) implementing structural programs that result in quantifiable water conservation results, (2) developing, maintaining and enforcing water conservation policies, (3) adhering to all applicable rules of the Texas Commission on Environmental Quality and/or the Texas Water Development Board and (4) supporting public education programs that educate customers water conservation.

Section 3. Service Area. Profile data for the City is provided in Appendix "A". Appendix "A" includes data on the City's service area, including population and customer data, water use data, water supply system data and wastewater data. *Water Conservation Utility Profile, TWDB-1965* was utilized to provide the profile data.

Section 4. Five-year and Ten-year Targets. The City shall use reasonable efforts to reduce water loss and municipal use of water. In doing so, the City has identified the following goals for water savings:

Five Year Target: The per capita water usage in the City over the previous five years (2009-2013) was 193 gallons per capita per day ("gpcd"). By the year end 2019, the City shall attempt to reduce the average daily use of water in the City's service area by 5% to 183 gpcd, and to keep the unaccounted water in the system below 10% annually.

Ten Year Target: By the year end 2024, the City shall attempt to reduce the average daily use of water in the City's service area by an additional 3% gpcd to 178 gpcd, and to keep the unaccounted water in the system below 10% annually.

Notwithstanding the targets identified above, the City shall not be obligated to achieve any water savings in its service area, and the City's failure to do so shall not subject the City to any liability whatsoever.

Section 5. Metering Devices. The City will implement a plan of universal metering of all water delivered by the City, and all such metering devices will be calibrated regularly to ensure reasonable accuracy.

Section 6. Unaccounted Water Usage. The City of Humble authorizes the City Manager to

implement any reasonable program to determine unaccounted uses of water and to make recommendations regarding measures to control such unaccounted uses of water. Such measures may include periodic visual inspections along distribution lines, annual or monthly audits of the water system to determine illegal connections, and investigation of abandoned service connections. The City Manager shall also establish a program of leak detection, repair, water loss accounting for the water storage, delivery, and distribution system in order to control unaccounted uses of water.

Section 7. Continuing Public Education and Information. The City hereby institutes an educational program, to be implemented immediately, to promote the Plan by the general public which may include any of the following:

Direct distributions to all customers of the City of educational and informational material regarding water conservation or drought contingency planning. This may be information provided with the utility billing.

Participation with elementary schools within the City of Humble in the Water Wise Program.

Provide book covers to the elementary school promoting water conservation.

Section 8. Cost-based Rate Structure. The City has adopted a water rate structure which is not “promotional” but is cost-based and which does not encourage the excessive use of water. The current water rate structure is attached hereto as Appendix "B”

Section 9. Implementation and Enforcement. Without limitation to specific actions stated in this Plan to be taken by the City Manager, the City Manager will administer and enforce this Plan, and will oversee and be responsible for the execution and implementation of all elements of this Plan.

The City of Humble will adhere to the following in an effort to achieve the targets and goals for water conservation:

Calibrations of the existing water supply meters will be performed annually at a minimum.

The City of Humbles retail customer water meter replacement program is as follows: Meters will continue to be monitored for accuracy and will be tested and replaced or rebuilt on a five-year cycle from meters larger than 2” and on a ten-year cycle for meters 2” and smaller. Logs shall be maintained for meter calibration, meter testing, and meter replacement programs.

Water audits are conducted annually. Real water losses are identified and corrected. Annual water audits shall be documented and kept in the City’s files.

The City of Humble does their billing by computer. The meters are read with tower mounted automatic meter reading device. Information collected by the automatic meter reader and computer can detect variation in consumption. The meter reading/billing software produces a report of high or

low consumption which is manually checked in the field.

The City of Humble will mail out material developed by the staff, materials obtained from the Texas Water Development Board, Texas Commission on Environmental Quality or other sources to all retail customers.

The City of Humble will continue to review rates annually to insure water revenues exceed expenses and replacement costs and to discourage excessive and wasteful use.

Section 10. Leak Detection and Repair. The City monitors monthly water use accounting by the billing computer which identifies high water use of the service meters indicating leaks. The data transmitted from meters can identify at what time the water is being used. A steady flow of water throughout the night can indicate leaking pipe or fixtures. The system notifies the utility department regularly of connections that may have a leak and are checked in the field. Constant monitoring by visual inspection by City employees of facilities keeps a constant watch to identify major water main breaks and for abnormal conditions indicating leaks. The City has an adequate maintenance staff available to repair any leaks

Section 11. Record Management. The City authorizes the City Manager to establish a record management system to record water pumped, water delivery, water sales, and water losses, and which allows for the segregation of water sales and uses into single family, multi-family, commercial, industrial, institutional and agriculture user classes.

Section 12. Wholesale Water Customers. The City shall require that each successive wholesale customer develop and implement a water conservation plan or water conservation measures in compliance with all applicable rules of the Texas Commission on Environmental Quality. This requirement will also extend to each successive wholesale customer in the resale of water.

Section 13. Five-year Review. The City shall review and update the Plan every five years, or more frequently, as appropriate, based on an assessment of previous five-year and ten-year targets and any other new or updated information.

Section 14. Coordination with Regional Water Planning Group. The service area of the City is located within the Region H Water Planning Area, and the City has provided a copy of this water conservation plan to the Region H Regional Water Planning Group.

2024	18,187	1,483,719,000

2. Describe sources of data and how projected water demands were determined. Attach additional sheets if necessary.

Projected water demands were projected based on the water use over the past 29 years. We had data on the total pumping into the system back to 1985. We looked each year and compared it to the last 5,10,15,20 and 25 years. The individual for each numbers varied some were positive and others were negative depending years. However when we averaged the percent change for the 5, 10, 15 20 and 25 year the average for each fell between 0.95% and 0.82%. A yearly increase of 0.90% was utilized to project the future water demand. Additionally, based on information provided by a developer an additional 1 MGD was added between the years 1018 and 2027 (and additional 100,000 gpd/year until the development is complete). The population has grown at 0.45% from the 2000 census to the 2010 census. It was assumed that this rate will continue along with an additional 250 per year for the proposed development.
